OMRON Corporate Governance Policies

Seeking sustainable enhancement of our corporate value

Section 1 General Provisions

1. Basic Stance for Corporate Governance and Objective of Establishing the Corporate Governance Policies

At the OMRON Corporation and its affiliated companies (hereinafter referred to as the “OMRON Group”), corporate governance is defined as the system of processes and practices based on the Omron Principles and the Omron Management Philosophy. The system is intended to ensure transparency and fairness in business and speed up management decisions and practices. This is done by connecting the entire process from oversight and supervision all the way to business execution in order to boost the OMRON Group’s competitive edge. OMRON’s corporate governance also involves building such a system and maintaining its proper function. The ultimate objective is to achieve sustainable enhancement of corporate value by earning the support of all stakeholders.

In accordance with this basic stance, the OMRON Group has set forth the following corporate governance policies (hereinafter referred to as the “Policies”) as the foundation for the Group's pursuit of continuous enhancement of its corporate governance.

<Omron Principles>

Our Mission

To improve lives and contribute to a better society

Our Values

- **Innovation Driven by Social Needs**

Be a pioneer in creating inspired solutions for the future.

- **Challenging Ourselves**

Pursue new challenges with passion and courage.

- **Respect for All**

Act with integrity and encourage everyone’s potential.

<Management Philosophy>

We believe a business should create value for society through its key practices.

We are committed to sustainably increasing our long-term value by putting Our Mission and Values into practice.

- We uphold a long-term vision in our business practices to create solutions to society's needs
- We operate as a truly global company through our fair and transparent management practices
- We cultivate strong relationships with all of our stakeholders through responsible engagement

2. Establishment, Revision, and Abolishment

Any establishment, revision, and abolishment of these Policies must undergo resolution at a meeting of the Board of Directors.

Section 2 Stakeholder Relationships

1. Relationships with Shareholders

(1) General Shareholders Meetings

The OMRON Group recognizes the general shareholders meetings as its highest decision-making body. As such, the OMRON Group takes measures to ensure that shareholders are provided with a sufficient time to exercise their rights, and maintains an environment in which shareholders can exercise their rights appropriately.

- The OMRON Group holds the annual general shareholders meeting at least three days prior to the so-called “date of highest concentration of general shareholders meetings.”
- The OMRON Group strives to include the simplest and clearest possible explanations in the general shareholders meeting documents, including the use of charts and tables.
- The OMRON Group sends access notices of internet availability of the convocation notices to shareholders at least three weeks before the date of the meeting.
- Prior to sending the access notices of internet availability of the convocation notices to shareholders, the OMRON Group discloses information included in the general shareholders meeting documents. To do so, the OMRON Group posts the general shareholders meeting documents in Japanese and English on the Tokyo Stock

Exchange's Timely Disclosure Network, Electronic Voting Platform, the Group's website, etc. about a month before the date of the meeting.

- The OMRON Group seeks to enhance convenience for shareholders in exercising their voting rights by enabling electronic voting via the Internet or using the Electronic Voting Platform.
- Should institutional investors who hold shares in street names express, in advance of the general shareholders meeting, an interest in exercising voting rights, the OMRON Group will consult with the trust bank and/or custodial institutions over this possibility. Should such institutional investor(s) also desire to observe the general shareholders meeting, such admission will be accepted after the investor(s) undergo specified procedures.

(2) Securing the Rights of Shareholders

Living up to its management philosophy, "We cultivate strong relationships with all of our stakeholders through responsible engagement," the OMRON Group will fully secure virtually all shareholder rights, including rights of minority shareholders and foreign shareholders. The OMRON Group also strives to build long-term relationships of trust with shareholders by increasing its corporate value and providing adequate returns of earnings to shareholders.

- The Board of Directors will sincerely accept the results of the exercise of voting rights. Should votes against the OMRON Group's proposal exceed 30%, the Board will analyze the reasons behind opposing votes and take necessary measures such as engaging in dialogue with shareholders.

(3) Constructive Dialogue with Shareholders

The OMRON Group strives to contribute to sustainably increasing its corporate value through dialogue with shareholders. Additionally, we will separately release our basic policies for the development of systems and initiatives for facilitating constructive dialogue with shareholders.

(4) Basic Strategy for Capital Policy

1. To maintain and improve shareholder value, the OMRON Group will implement management practices by taking into consideration the adequate target levels for return on invested capital (ROIC), return on equity (ROE), and earnings per share (EPS). To prepare for rapid fluctuations in economic conditions, we will also set

the equity ratio target at a level sufficient for maintaining a corporate credit rating that enables raising of funds without regard to monetary market conditions.

2. With respect to capital policy that results in a change of control or in significant dilution, the Board of Directors will make a rational decision by fully taking into consideration the effects it would have on the aforementioned ROIC, ROE, and EPS.
3. If the OMRON Group implements a fund-raising program that will result in significant dilution, the use of the fund and its collection plan will be fully examined and deliberated at a meeting of the Board of Directors before making a resolution, and sufficient explanation will be given to investors and shareholders.

(5) Cross-Shareholding Strategy

1. Aiming for sustainable improvement of its corporate value, the OMRON Group will hold shares of other companies as cross-shareholdings*, but only in cases intended for collaboration toward building social value.
2. As for cross-shareholdings, the Board of Directors annually assesses whether or not to hold each individual cross-shareholding, by closely examining its purpose and underlying rationale from a medium- to long-term perspective. The assessment of appropriateness for cross-shareholdings will reflect the status of collaboration with the investment destination, its impact on the OMRON Group's business, the ROE of the investment destination, and the degree of contribution to the OMRON Group's earnings that the transactions with the investment destination make, and other factors. In the case of shares for which the purpose of holding and the underlying rationale have found to have diminished based on the results of assessment, the OMRON Group will proceed with sale of the cross-held shares while taking into consideration the possible impact on its business and markets.
3. The Voting Rights Exercising Committee chaired by the CFO will make a decision whether or not to exercise voting rights for cross-held shares. Decisions with respect to whether or not to execute voting rights of cross-held shares, will be based on comprehensive judgment of the possibility of improvement in corporate value of the investment destination in the medium- to long-term. Dialogue with the investment destination will be arranged as necessary.

* cross-shareholding: There are cases where listed companies hold the shares of other listed companies for reasons other than pure investment purposes, for example, to strengthen business relationships. Cross-shareholdings here include not only mutual shareholdings but also unilateral ones.

(6) Anti-Takeover Measures

1. No anti-takeover measures are in place at the OMRON Group.
2. In the case of a tender offer made to us, the Board of Directors will take the following measures in response:
 - Seek the presentation of a strategy to enhance the OMRON Group's corporate value from the party making the tender offer.
 - Make a presentation of the OMRON Group's strategy to increase its corporate value to shareholders.

(7) Prevention of Related Party Transactions

1. The OMRON Group will examine the presence of any transactions in which the OMRON Group engages with its directors, executive officers, and/or Audit & Supervisory Board members, and prepare confirmation documents. Any finding of material fact will be reported to the Board of Directors.
2. Any transactions between related parties will be disclosed in accordance with the Companies Act, Financial Instruments and Exchange Act, and other applicable laws, as well as rules established by the Tokyo Stock Exchange.

We also aim to offer high-value products and services by consistently procuring the best possible goods and services in terms of QCDS (Quality, Cost, Delivery, and Service) as a whole from global sources, in order to increase customer satisfaction.

5. Relationships with Communities

In line with Our Mission, “To improve lives and contribute to a better society,” we aim to provide solutions to society’s issues through our business, as we recognize the importance of creating value for society. We also believe that the very purpose of OMRON’s existence—its mission—is to continuously contribute to the sustainable development of society, as we continue to seek to create a better society.

- Guided by the Omron Principles, the OMRON Group will help to build a sustainable society on a global scale by offering products and services that contribute to the global environment and making the most effective use of its management resources possible.
- Points of contact are in place to handle inquiries from citizens of local communities and other stakeholders and sincerely respond to them.
