Announcement of Increased Dividend Forecast for Fiscal Year Ending March 31, 2007

TOKYO, Japan – On February 22, 2007, OMRON Corporation's (TSE: 6645; ADR: OMRNY; hereafter, 'OMRON') Board of Directors passed a resolution to make an upward revision to the year-end dividend forecast for fiscal year 2006, which was originally announced on October 30, 2006.

1. Reason for Upward Revision of Dividend Forecast

As announced on January 30, 2007, OMRON expects to achieve record consolidated profits in fiscal year 2006, making this the company's fifth consecutive year of increased consolidated revenue and income. OMRON is fully aware that this success is due in large part to the support of its shareholders and other stakeholders.

As an expression of gratitude for this continued support, OMRON will raise the year-end dividend payment to 19 yen per share for the fiscal year ending March 31, 2007. Added to the interim dividend of 15 yen per share paid on December 6, 2006, this means that the dividend payout for the full year will be 34 yen per share. This decision was made at a Board of Directors meeting held on February 22, 2007, and is planned to be submitted to the 70th General Meeting of Shareholders scheduled for June this year.

2. Revised Figures

	Dividend Per Share		
	Interim	Year-end	Annual
Previous Forecast (October 30, 2006)	15 yen	15 yen	30 yen
Revised Forecast	15 yen	19 yen	34 yen
Dividend paid to date in Fiscal 2006	15 yen	-	-
Fiscal 2005 Results (March 31, 2006)	12 yen	18 yen	30 yen
