Operating Environment Outlook

**Overall improvement from FY2023.
Expect gradual recovery in IAB and DMB from H2**

IAB
Industrial
Automation

**Business environment remains sluggish in H1, with differences among markets.
In H2, expect gradual recovery in demand, mainly in digital market** *Details on later pages

HCB
Healthcare

BPM market to grow gradually on a global basis

Cardiovascular: Expect gradual growth on a global basis, centered on China and Asia

Respiratory: Demand for nebulizers continues to expand globally, although affected by the backlash from China's special demand for respiratory diseases

SSB
Social Systems,
Solutions &
Service

Overall favorable business environment continues

Energy: Renewable energy-related investments in the residential area will continue. In the industrial field, the need for PV installation is expected to increase

Railway: Investment demand from railway companies is steady due to recovery in ridership and fare revisions

DMB
Device & Module
Solutions

Demand remained sluggish in general in H1; gradual improvement from H2

DC Equipment/Microwave Devices: Driven by increased demand for advanced semiconductors, expect full-scale growth from H2

Commodity Devices: Despite some differences among markets, expect gradual recovery from H2 as the market continues to deplete inventory

DSB
Data Solutions

Strong business environment continues, centered on health big data business

JMDC : Expect expansion of medical data utilization movements, mainly among pharmaceutical and Life and non-life insurance industries. In response to growing social awareness of health and prevention, expect demand for services for insurers and consumers to increase

Forecasts: Consolidated Earnings

Increased sales and profits. Plan to significantly increase OP by improving GPM and fixed cost productivity
