Independent Practitioner's Assurance Report

July 10, 2017

Mr. Yoshihito Yamada,
President and CEO,
OMRON Corporation

Masahiko Sugiyama
Representative Director
Deloitte Tohmatsu Sustainability Co., Ltd.
3-3-1, Marunouchi, Chiyoda-ku, Tokyo

We have undertaken a limited assurance engagement with respect to the Ratio of Non-Japanese in Managerial Positions Overseas, the Ratio of Women in Managerial Roles, and the Ratio of Employees with Disabilities (collectively the "Social Performance Indicators") for the year ended March 31, 2017* presented on page 22, under the Non-Financial Highlights section of the Integrated Report 2017 (the "Report") of OMRON Corporation (the "Company").

* Ratio of Women in Managerial Roles* figures as of April 30, 2017.

The Company's Responsibility
The Company is responsible for the preparation of the Social Performance Indicators in accordance with the calculation and reporting standards adopted by the Company (stated in the scope of limited assurance on page 22 of the Report).

Our Independence and Quality Control
We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior. We apply International Standard on Quality Control 1, *Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements*, and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Responsibility
Our responsibility is to express a limited assurance conclusion on the Social Performance Indicators based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board ("IAASB") and the *Practical Guidelines for the Assurance of Sustainability Information*, issued by the Japanese Association of Assurance Organizations for Sustainability Information.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, analytical procedures, evaluating the appropriateness of quantification methods and reporting policies, and agreeing or reconciling with underlying records. These procedures also included the following:
Evaluating whether the Company's methods for estimates are appropriate and had been consistently applied. However, our procedures did not include testing the data on which the estimates are based or reperforming the estimates.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement.

Limited Assurance Conclusion
Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Social Performance Indicators of the Company are not prepared, in all material respects, in accordance with the calculation and reporting standards adopted by the Company.

The above represents a translation, for convenience only, of the original Independent Practitioner's Assurance report issued in the Japanese language.

Member of
Deloitte Touche Tohmatsu Limited

Scope of Independent Practitioner's Assurance Report

- Environmental contribution (P23)
- Net sales to CO₂ emissions (P23)

**Environmental Performance Data
Independent Verification Report**

To: OMRON Corporation

Bureau Veritas Japan Co., Ltd.
System Certification Services Headquarters
June 26, 2017
YOKOHAMA

Bureau Veritas Japan Co., Ltd. (Bureau Veritas) has been engaged by OMRON Corporation (OMRON) to conduct independent verification and review of its environmental data selected for inclusion in the OMRON's corporate website, prepared under the responsibility of OMRON. The aim of the verification is to consider the reliability and accuracy of environmental data detailed in the website and to provide a verification opinion based on objective evidence. The aim of the review is to make an independent statement concerning the reliability and accuracy of the environmental data.

1. Verification and Review Outline
1) Environmental Impact data generated through business operations in FY2016 (April 1, 2016 through March 31, 2017)
Bureau Veritas conducted a verification of the following data.

Scope of Verification	Sites Visited	Verification Methodology
GHG emissions (CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ and NF ₃) through business operations of OMRON Group's 40 manufacturing sites both inside and outside Japan. However, CO ₂ emissions generated from use of electricity for living use, steam and hot water at OMRON DALIAN Co., Ltd. are out of verification scope.	- OMRON's head office - OMRON Ayuda Plant - OMRON PRECISION TECHNOLOGY Co., Ltd. - OMRON AUTOMOTIVE ELECTRONICS, INC.	- Review of documentary evidence produced by OMRON's head office and the sites visited - Interviews with relevant personnel of OMRON's head office and the sites visited - Site inspection and review of data monitoring procedures - Comparison between the reported data and supporting documentary evidence
Water usage and Waste water discharged through business operations of OMRON Group's 42 sites both inside and outside Japan. Categories 1, 2, 3, 6 and 7 of Scope 3 GHG emissions accounted and reported in line with the GHG Protocol's 'Corporate Value Chain (Scope 3) Accounting and Reporting Standard' within the boundaries defined by OMRON for each category. Carbon Productivity (Global sales / CO ₂ emissions from global production sites)	- OMRON's head office	- Review of documentary evidence produced by OMRON's head office - Interviews with relevant personnel of OMRON's head office - Comparison between the reported data and supporting documentary evidence

This verification was conducted using Bureau Veritas' standard procedures and guidelines for external verification of non-financial reporting, based on current best practice. Bureau Veritas refers to the International Standard on Assurance Engagements (ISAE) 3000 in providing a limited assurance for the scope of work stated herein.

2) Environmental contribution by sold products and services
Bureau Veritas conducted a review of the following data.

Data Reviewed	Site Visited	Review Methodology
The amount of contribution to CO ₂ emission reduction through the use of products and services sold in FY2016 Note: The boundaries and accounting methodologies are defined by OMRON.	OMRON's Head Office	- Review of documentary evidence produced by OMRON's Head Office and the departments of the relevant products and services - Interviews with relevant personnel of OMRON's Head Office and the departments of the relevant products and services - Comparison between the data used in the calculation of emissions reductions and the supporting documentary evidence

2. Findings
On the bases of our methodology and the activities described above:
- Nothing has come to our attention to indicate that the reviewed information within the scope of our verification and review is inaccurate and does not provide a fair representation of the performance for the defined period.
- It is our opinion that OMRON has established appropriate systems for the collection, aggregation and analysis of quantitative data within the scope of our verification and review.

Bureau Veritas has implemented a code of ethics across its business which is intended to ensure that all our staff maintain high standards in their day to day business activities. We are particularly vigilant in the prevention of conflicts of interest. Bureau Veritas activities for OMRON are for sustainability reporting verification only and we believe our verification assignment did not raise any conflicts of interest.
