OMRON Corporation Integrated Report 2021

Responsible Engagement with Our Stakeholders

As stated in our Sustainability Policy, OMRON cultivates strong relationships with our stakeholders through responsible engagement. Relationship of trust through engagement with our stakeholders is an indispensable asset for the sustainable growth of OMRON and an essential element for us to create social needs. We are committed to responsible engagement with all of our stakeholders to sustainably improve our corporate value and solve social issues through our business.

Customer Engagement

**OMRON Opens a Virtual Facility of its AUTOMATION CENTER, a Showcase Facility for State-of-the-Art FA Technology**

OMRON has commenced a virtual tour to its AUTOMATION CENTER (ATC), a factory automation technology center where customers join with OMRON to find solutions to their manufacturing issues, and is working with customers to solve issues even as travel restrictions are imposed due to COVID-19. Allowing customers from around the world to view on their computers the virtual content that features facilities and demonstration machines at the flagship ATC-TOKYO, the largest of 37 ATCs across the globe, this new service gives global customers the most realistic experiences of OMRON’s state-of-the-art FA technology anytime, anywhere. Afterwards, customers can also have a remote experience of many solution services including “demonstration/verification” and “technology training” if they wish, leading to the creation of an environment similar to the customers’ facilities. Thanks to these processes, we have engaged with over 4,000 customers even under the state of emergency, and are constantly creating innovative solutions.

Employee Engagement

**“VOICE,” Our Employee Engagement Survey**

Since 2016, OMRON has conducted the global employee engagement survey “VOICE” with the aim of allowing management to listen directly to feedback from employees, identify management issues, and take actions to solve them. OMRON focuses on organizational management, systems, human resource development, organizational culture, etc. which make up the foundations that support our business, and promotes to create a company where each employee of the OMRON Group learns and embraces the OMRON Principles, strategies, and Company goals, and can work with a focus on demonstrating their talents (with a high level of engagement) to achieve them.

OMRON Principles Missionary Dialogues

Since FY2013, OMRON has worked on the “OMRON Principles Missionary Dialogues,” a forum of communication between the Chairman of the Board and top executives from around the world who will be the next generation of leaders. Through the Dialogues, participants externalize in their own words what the practice of the OMRON Principles means to them. In addition to deepening their own understanding of the OMRON Principles, they discuss how they contribute to the Company’s growth and expand the circle of resonance for the OMRON Principles among members in their own divisions. In FY2020, the Dialogues were held online for the first time due to the COVID-19 crisis. Holding the Dialogues online allowed many members to participate, and a wider variety of opinions were exchanged by utilizing the chat function and other features.

Shareholder and Investor Engagement

**Organized the General Meeting of Shareholders and ESG Meeting under the COVID-19 crisis.**

OMRON strives to raise corporate value through dialogues with shareholders and investors. In FY2020, we held the 83rd Ordinary General Meeting of Shareholders and the ESG Meeting online in order to prevent the spread of COVID-19. In the Ordinary General Meeting of Shareholders, we were able to engage with a large number of shareholders and investors by also utilizing the internet to broadcast the Meeting by relay while keeping the number of shareholders attending the Meeting at the venue to a minimum. These efforts have resulted in a 3.7 point increase in the percentage of voting rights exercised to a record high of 88.1%. In the ESG Meeting, we gave an explanation on our business, our human resource initiatives based on the OMRON Principles, our initiatives for sustainability and the environment, energy solution business, and climate change. The Meeting was attended by 225 shareholders and investors (including a record 170 investors), asking many questions and making comments. The knowledge we received from these dialogues has led to improvements in our management initiatives. OMRON will work to disclose information to our shareholders and investors in a highly transparent manner even under the COVID-19 crisis.
OMRON has been lauded by ESG assessment institutions around the world, leading to the inclusion of its stock in ESG indexes in Japan and abroad. From the Publisher

We prepared this Integrated Report for 2021, a year that passes the baton from the former long-term vision “VG2020” concluded in fiscal 2020 to the next long-term vision starting in fiscal 2022, with focus on three points. The first was describing the present OMRON’s value generation story structured with combination of “three timelines.” Specifically, the three timelines consist of the "long-term: 10 years," "medium-term: 4 years" and "short-term: compared to the prior fiscal year." In the "long-term" perspective, we aimed to express our journey of value generation with a long-term viewpoint by summarizing the former long-term vision, as well as showing the direction of the next long-term vision. Next, we incorporated the "medium-term" perspective into the descriptions of each business in the Business section. We aimed to describe the fact that our assets and abilities cultivated during the four-year period of the former medium-term management plan (fiscal 2017 to 2020) have lead to the current growth in each business. Lastly, we secured a role of this report as an annual report by summarizing the "short-term" financial results with a main focus on the fiscal 2020 actual results.

The second was that outside directors and independent Audit & Supervisory Board members respectively took part in the Governance section of this report. Regarding the “Board of Directors’ Effectiveness,” Chairman of the Board of Directors and the lead Outside Director had a conversation. We interviewed Chairman of the Compensation Advisory Committee about the “Compensation Governance,” as well as an independent Audit & Supervisory Board member about the actions taken by the Audit & Supervisory Board and a response to KAM (Key Audit Matters). OMRON has a hybrid governance framework that combines a company with the Audit & Supervisory Board and a Selection Advisory Committee. We have thought that presenting discussions on the effectiveness of governance by outside directors as well as independent Audit & Supervisory Board members will lead to securing further transparency and development of constructive dialogue with the markets.

Finally, from this fiscal year, we clarified each role of the “Business Report,” “Securities Report” and “Integrated Report,” and, at the same time, attempted to link these disclosure statements together in the “value generation story” that combines the financial and non-financial information. While editing this Integrated Report, which is a voluntary disclosure, we mainly focused on complementing the securities report by multilaterally depicting the information leading to the non-financial value with officers’ and employees’ viewpoints. Please read the securities report if you have not yet done so.

We will continue to place great value on dialogue with our stakeholders. We look forward to hearing your honest opinions in this regard.
