Tsutomu Igaki

Executive Officer, Global Investor & Brand Communications HQ

Mr. Igaki is responsible for OMRON Group IR, SR, and public relations activities, working to grow the value of the global OMRON brand.

He joined OMRON in February 2013 as our corporate communications general manager. He has served in his present role since 2017.

Prior to joining OMRON, Mr. Igaki served in key positions in communications-related roles at foreign-capitalized consumer products manufacturers, consulting firms, and other entities. He is active in numerous extracurricular activities, including serving as director of the Japan Society for Corporate Communication Studies.

Takashi Kitagawa

Executive Officer, Board of Directors Office

Mr. Kitagawa is responsible for building and operating an OMRON-worthy corporate governance structure to raise OMRON Group corporate value in a sustainable manner. He serves on our board of directors, on various advisory committees, and as the senior manager over the office of the Corporate Governance Committee.

Since joining OMRON, Mr. Kitagawa has worked in sales of control devices under our Industrial Automation Business and as president of an Industrial Automation Business sales company in Southeast Asia. In 2010, Mr. Kitagawa was named general manager of the office of the board of directors.

Kiyoshi Yoshikawa

Managing Executive Officer, Global Manufacturing Innovation HQ

Mr. Yoshikawa is responsible for supporting OMRON Group businesses through manufacturing capability innovations and a stronger supply chain. After serving as manager in charge of manufacturing technology training and education within the HQ Manufacturing Technology Division, he becomes involved in manufacturing innovation projects and overseas production development projects within OMRON.

Mr. Yoshikawa has served as general manager of the Corporate Planning Office Operations Innovation Department and planning office general manager within our Industrial Automation Business. In 2010, he was named senior general manager of the Manufacturing Innovation Division and he took over his current responsibilities in 2016.

Teruyasu Imai

Senior General Manager, Environmental Innovation Center Global Manufacturing Innovation HQ

Mr. Imai is in charge of environmental matters across the OMRON Group. He has been involved in energy management since the founding of OMRON Social Solutions in 2011. In December 2017, Mr. Imai assumed his current position, responsible for planning and directing the OMRON Carbon Zero project.

Presenters (2/2)

*In order of presentation

Katsumi Ohashi

Environmental Solutions Business HQ

Mr. Ohashi works for the wider adoption of renewable energy, being involved in all aspects of generation, storage, and conservation in the OMRON Environmental Solutions Business HQ. He was in charge of planning OMRON's outdoor power conditioners, a hit product that has won the No.1 share of the market.

He has served in his present position since 2009, having performed image processing technology development in our Technology & Intellectual Property HQ, new business planning in the Business Development Division, and other valuable work for the OMRON Group.

Tetsuya Miyazaki

OMRON Field Engineering Co.,Ltd

Energy Management HQ

Mr. Miyazaki served as the Miyazu City (Kyoto Pref.) renewable energy local production and local consumption project sales leader. This project was a major part of the OMRON Energy Management Business entering a new business sector. His role in that project contributed creating a new business in regional solar power generation. Mr. Miyazaki was named to his current position in 2015 after serving in sales at our Industrial Automation Business, in our HQ Public Relations Department, in business planning at our Social Systems, Solutions and Service Business, and in positions in new business divisions.

Kashuku Hirao

Senior General Manager, Sustainability Office

Responsible for sustainability initiatives within the OMRON Group, Ms. Hirao has led the group in building a stronger foundation for global engagement to address sustainability issues. She works to address and monitor matters by coordinating among business divisions, bringing OMRON resources to bear on the most important issues. Ms. Hirao joined OMRON in May 2014 as CSR general manager. She has served in her present position since 2017.
