## Omron Announces Revisions to Full-Year Consolidated Performance Forecast for Fiscal 2015

KYOTO, Japan – OMRON Corporation (TOKYO: 6645; ADR: OMRNY) today announced the revisions to the full-year consolidated performance forecast for fiscal 2015 (April 1, 2015 – March 31, 2016) taking into account recent trends in business performance.

### 1. Revised Full-Year Performance Forecast for Fiscal 2015 (April 1, 2015 – March 31, 2016)

(Millions of yen, except per share data)

	Net sales	Operating income	Income before income taxes	Net income attributable to shareholders	Net income per share attributable to shareholders
Previous Forecast (A)	900,000	90,000	89,000	66,500	306.10 yen
New Forecast (B)	860,000	70,000	71,000	53,500	247.84 yen
Change (B-A)	-40,000	-20,000	-18,000	-13,000	
Change (%)	-4.4%	-22.2%	-20.2%	-19.5%	
(Reference) Actual consolidated results for the previous fiscal year (April 1, 2014 – March 31, 2015)	847,252	86,591	87,388	62,170	283.89 yen

### 2. Reasons for Revisions

The same as in the six months ended September 30, 2015, the performance of the businesses under the direct control of Headquarters is expected to be weak in the third quarter and thereafter. In addition, the slowdown in the Chinese economy is expected to affect all business. Based on this understanding of conditions, OMRON revises its performance forecast as shown above.

The effect of acquisition of Adept Technology, disclosed on October 23, 2015 in the 'Notice of result of tender offer for leading U.S. industrial robot manufacturer Adept Technology and consequent change in subsidiaries', will be immaterial and its expected effect to full-year performance is already taken into consideration in the above revised forecast.

The assumed exchange rates for the third quarter onward in the performance forecasts are USD 1 = JPY120 and EUR 1 = JPY 135.

Notice: The performance forecast is based on information available to the Company at the present time. Due to various factors, actual results may differ from the forecast.
