Proposals and Reference Items

No. 1: Dividends from Retained Earnings

OMRON has set the objective of maximizing the Company's corporate value over the long term. Appropriate returns to shareholders and growth to expand earnings over the long-term are positioned as management priorities. Specifically, the Company will payout dividends of 30% of consolidated net income after securing internal capital resources for necessary R&D expenditures, capital investments and other investments in growth to increase its corporate value. This is based on the "payout ratio of 30%," which had been aimed in the medium-term management plan towards fiscal 2016.

Based on this policy, the Company plans to pay a year-end dividend of JPY 34 per share.

As the Company has paid an interim cash dividend of JPY 34 per share, total cash dividends for the fiscal year will be JPY 68 per share.

(1) Type of dividend assets:

Cash

(2) Item concerning allotment of dividend assets to shareholders and total amount of dividends:

JPY 34 per share of common stock. Total amount JPY 7,269,381,424

(3) Effective date of the dividend:

June 23, 2017

No. 2: Partial Change to the Articles of Incorporation

1. Reasons for the Change

The Company has decided to abolish Directors with title, except for the Chairman of the Board, who also serves as the Chairman of the Board of Directors Meeting, in order to further improve the oversight function of the Board of Directors. At the same time, the President, who is the Chief Executive Officer, will be positioned as an Executive Officer and be elected from among the Executive Officers in order to establish an optimum and flexible execution system.

Through these measures, the Company will further promote the separation of management oversight and business execution functions and clarify the responsibilities of each function, to move even closer to achieving the sustainable enhancement of corporate value.

Based on the above stance, the Company will make a partial change to the current Articles of Incorporation as detailed below.

- (1) Abolishing Directors with title, except for the Chairman of the Board, who also serves as the Chairman of the Board of Directors Meeting (Article 23 of the planned revision).
- (2) Clarifying the method of election and the roles of Executive Officers; positioning the President, who is the Chief Executive Officer, as an Executive Officer; and enabling the President to be elected from among the Executive Officers (Article 31 of the planned revision).
- (3) In connection with the above, changing the provisions regarding the person to convene General Meetings of Shareholders and the Chairperson thereof (Articles 15 and 16 of the planned change) and the method of election of Representative Director(s) (Article 24 of the planned revision).
- (4) In addition to the above, making other necessary changes, such as additions, deletions, or revisions of the wording as appropriate.

No. 3: Election of Eight (8) Directors

The terms of all eight (8) Directors will expire at the close of this General Meeting of Shareholders.

The Company therefore requests the election of eight (8) Directors, including three (3) Directors (Independent). In this election, the Company will appoint three (3) new Directors following the retirement of three (3) Directors.

The Company has established the Personnel Advisory Committee to enhance the transparency and objectivity in the nomination process of candidates for Directors. In response to consultation from the Chairman of the Board of Directors Meeting, the Committee discusses and makes recommendations on the candidates for Directors in accordance with the election criteria. Reflecting the Personnel Advisory Committee's recommendations, the Board of Directors nominates the candidates for Directors.

The Director candidates are as stated on pages 6 to 14.

The Company's policy regarding the independence of Outside Officers

- The Company makes it a rule to elect and appoint Outside Officer nominees following resolutions by the Board of Directors, based on the consultation to, deliberation by and reporting from the Personnel Advisory Committee chaired by a Director (Independent), in accordance with the independence requirements stated in the Company's own "Independence Requirements for Outside Officers (see Note)" in addition to the requirements under the Companies Act.
- With regard to making all Outside Officers Independent Officers, the matter was resolved at a meeting of the Board of Directors. This decision followed consultation with the Corporate Governance Committee, composed of Outside Officers, with a view to ensuring that the Company's own "Independence Requirements for Outside Officers" are appropriate criteria for judging the independence of Outside Officers.

(Note) "Independence Requirements for Outside Officers" (revised on December 25, 2014)

In selecting new Outside Officer nominees, the Company has set the following independence requirements to define relations between the OMRON Group and the nominees as well as companies or organizations to which they belong. Outside Officers shall maintain the following independence requirements after appointment as well, and if there is an appointment to a principal position, independence shall be reviewed based on these independence requirements by the Personnel Advisory Committee.

 - (*) Principal employees refer to employees at the Senior General Manager level or above.
- 9. In addition, there shall be nothing questionable regarding the independence in performing duties as an Outside Officer.

Note: The above term 'OMRON Group' means OMRON Corporation and its subsidiaries.

No. 4: Election of One (1) Audit & Supervisory Board Member

The term of office of the Audit & Supervisory Board Member Mr. Yoshifumi Matsumoto will expire at the close of this General Meeting of Shareholders. The Company therefore requests the election of one (1) new Audit & Supervisory Board Member.

The Company has obtained the consent of the Audit & Supervisory Board regarding this proposal.

The Company has established the Personnel Advisory Committee to enhance the transparency and objectivity in the nomination process of candidates for Audit & Supervisory Board Members. In response to consultation from the Chairman of the Board of Directors Meeting, who has been entrusted by the Audit & Supervisory Board, the Committee discusses and makes recommendations on the candidates for Audit & Supervisory Board Members in accordance with the election criteria. Reflecting the Personnel Advisory Committee's recommendations, and with the consent of the Audit & Supervisory Board, the Board of Directors nominates the candidate for Audit & Supervisory Board Member.

The Audit & Supervisory Board Member candidate is as follows:

No. 6: Payment of Yearly Performance-linked Bonuses to Directors

Based on the “Policy on Determining Amount of Compensation, etc., and Methods Used for Calculation” stated on pages 43 to 45 of this Convocation Notice, the Company requests shareholders to approve payment of a total of JPY 149,160,000 in yearly performance-linked bonuses to five (5) Directors as of March 31, 2017, excluding Directors (Independent).

The methods of distribution and payment, etc. to each Director shall be resolved at the Board of Directors, based on the deliberation by and reporting from the Compensation Advisory Committee. The amounts to be paid to each individual Director shall be left to the discretion of the Board of Directors in this regard.

No. 7: Determination of Amount and Details of Performance-linked and Share-based Incentive Plan for Directors

1. Reasons for the Proposal and such Compensation Deemed as Appropriate

Compensation for Directors (excluding Directors (Independent)); the same applies hereinafter) shall consist of a “base salary,” “yearly performance-linked bonuses,” and “medium-to-long-term, performance-linked compensation.” The Company seeks approval for introducing a performance-linked stock compensation plan for the Company’s Directors (the “Plan”) as the “medium-to-long-term, performance-linked compensation” in the medium-term management plan “VG2.0,” targeting the four years from fiscal 2017 through fiscal 2020.

The Company formulated the basic policy and method of determining compensation for Directors, as described on pages 43 to 45 of this Convocation Notice, but has decided to revise the compensation policy for Directors as described on page 26 of this Convocation Notice, subject to the approval of this proposal.

The Plan is intended to clarify the linkage between compensation for Directors and the shareholders’ value of the Company to heighten their motivation to attain performance targets specified in the medium-term management plan and to contribute to sustainably improving corporate value (shareholders’ value) through Directors’ ownership of the Company’s shares. The Company, therefore, sees the adoption of the Plan as appropriate. The revision of the compensation policy for Directors and the adoption of the Plan have already been discussed at the meeting of the Compensation Advisory Committee, composed of a majority of Directors (Independent) and chaired by a Director (Independent).

This proposal asks for approval of payment of stock compensation for Directors, separate from the maximum limit of the aggregate monthly compensation for Directors (JPY 35 million per month) approved at the 63rd Ordinary General Meeting of Shareholders held on June 27, 2000, and the bonuses asked for approval in the proposal No. 6 of this General Meeting of Shareholders.

If proposal No. 3 “Election of Eight (8) Directors” is approved as originally proposed, five (5) Directors will be entitled under the Plan.

Subject to the approval of the adoption of the Plan at this General Meeting of Shareholders, the medium-term performance-linked bonuses and stock compensation, which had been employed during the three-years of the medium-term management plan covering fiscal 2014 through fiscal 2016 will be discontinued and new stock options will no longer be issued for the performance-linked stock acquisition rights (stock options with charge).

<Chart of Structure of Compensation for Directors>

Directors’ *1 compensation structure*2 is as follows, if this item is approved and resolved as proposed.

* 1 Directors (Independent) are excluded.

* 2 The chart above does not indicate the percentage of each compensation.

2. Amount and Details of Compensation under the Plan

(1) Overview of the Plan

Under the Plan, as the stock compensation plan, the trust acquires shares of the Company using funds contributed by the Company for the compensation for Directors, and the Company's shares and the money equivalent to the Company's shares (the "Company's shares, etc.") are granted and paid ("grant(ing), etc.") to the Directors through such trust. ((2) and subsequent sections summarize the details.)

The Plan consists of the "performance-linked portion" in which the Company's shares, etc., shall be granted, etc. after the completion of the medium-term management plan and the "non-performance-linked portion" in which the Company's shares, etc., shall be granted, etc. when the Directors retire. The "performance-linked portion" is aimed at motivating the Directors to achieve the goals of the Company's medium-term management plan and strengthening the linkage of compensation for Directors with the medium-to-long-term corporate performance. The "non-performance-linked portion" in turn is intended to promote alignment of interests of the Directors with those of other shareholders of the Company through ownership of the Company's shares. The "performance-linked portion" and the "non-performance-linked portion" account for 60% and 40%, respectively.

The average number of above maximum limit of the Company's shares, etc. to be granted per fiscal year, 150,000 shares, accounts for about 0.07% of the Company's total number of shares issued (after deducting treasury stock as of March 31, 2017) The Trust will acquire the Company's shares from the stock market.

<Composition Ratio of Compensation for Representative Director and President>

Composition ratio* of base salary, short-term performance-linked compensation (bonuses), and medium-to-long-term, performance-linked compensation (performance-linked stock compensation plan) for Representative Director and President is as follows.

* This ratio is based on the assumption that this item and the item regarding short-term performance-linked compensation (bonuses) are approved and resolved as proposed, and that performance targets are set as 100% for short-term performance-linked compensation (bonuses) and medium-to-long-term, performance-linked compensation (performance-linked stock compensation plan).

(2) Maximum Limit of Money to be Contributed by the Company

The period covered by the Plan shall be the fiscal years that correspond to the fiscal years covered by the medium-term management plan formulated by the Company (“covered period”). The initial covered period shall be four fiscal years from the fiscal year ending March 31, 2018 to the fiscal year ending March 31, 2021.

In each covered period, the Company shall contribute the trust money whose amount is calculated by multiplying JPY 600 million by the number of years of the relevant covered period (JPY 2.4 billion for four fiscal years of the initial covered period) and establish a trust (“the Trust”) for the period equivalent to the covered period wherein Directors who meet the beneficiary requirements are beneficiaries. The Trust shall acquire the Company’s shares from the stock market in one lump sum using the trust money, in accordance with the instructions of the trust administrator. The Company shall award points to Directors during the covered period (as described in (4) below), and the Trust shall grant, etc. the Company’s shares, etc. corresponding to the points awarded during a certain period determined in advance.

Upon expiry of the trust period, the Company may continue the Trust by making amendments to the trust agreement and making additional contributions instead of establishing a new Trust. In such a case, the trust period will be extended further with respect to the number of years corresponding to the subsequent medium-term management plan established at that time. The Company will make additional contributions for each extended trust period within the amount calculated by multiplying JPY 600 million by the number of years of such new covered period. In such cases where such additional contributions are to be made when there are any Company’s shares (excluding Company’s shares, etc., equivalent to points awarded to Directors that are yet to be granted, etc.) and money still remaining in the trust property (“the “residual shares, etc.”) at the last day of the trust period prior to the extension, then the sum of the amount of such residual shares, etc. and additional trust money to be contributed by the Company shall be within the amount calculated by multiplying JPY 600 million by the number of years of the new covered period.

In cases where the Company will not make amendments to the trust agreement and make no additional contributions of each Trust and Directors who may possibly meet the beneficiary requirements remain in office at the expiry of the trust period, the Company will not award points to the said Directors. However, the trust period may be extended until the said Directors retire and the granting, etc. of the Company’s shares, etc. is completed.

(3) Method of Calculation and Maximum Number of the Company's Shares, etc. to be Granted, etc. to Directors

The Company's shares, etc. will be granted, etc. according to the number of points awarded to each Director. The points are calculated by the following formulas. One point shall be equivalent to one share of the Company. If, however, the number of the Company's shares under the Trust increases or decreases because the Company's stock is subject to a share split or share consolidation, or allotment of shares without contribution, etc., the Company will adjust the number of the Company's shares, etc. to be granted, etc. for each point according to the percentage of increase or decrease of the Company's shares.

(Point calculation formula)

1) Performance-linked portion

The points calculated by dividing the individual compensation amount, which has been determined in advance with respect to each executive position by the stock price at the time when the Trust acquired the Company's shares, will serve as the base ("base points"). Based on the base points, single fiscal-year points shall be calculated by the following formula, and awarded to Directors who hold office on the last day of each fiscal year of the covered period. After the end of the covered period, the number of performance-linked points is calculated by adding up single fiscal-year points granted to Directors, and then multiplying the cumulative total by the performance-linked coefficient that is determined by the degree of achievement of performance targets, etc. specified in the medium-term management plan.

Calculation formula for single fiscal-year points : Base Points x 60%

Calculation formula for performance-linked points : $\frac{\text{Sum of single fiscal-year points during the covered period} \times \text{Performance-linked coefficient}^{*1 *2}}$

*1 The performance-linked coefficient varies between 0% and 200% depending on the degree of achievement of performance targets for consolidated net sales, EPS, and ROE, specified according to the medium-term management plan and sustainability indexes based on the evaluation rating of third-party organizations.

*2 If a Director passes away before the end of the covered period (including cases in which the Director passes away before the end of the covered period after resigning due to expiry of term of office or other reasons), the number of performance-linked points shall be calculated by adding up the number of single fiscal-year points granted up to the time of passing, and assuming that the performance-linked coefficient is 100%.

2) Non-performance-linked portion

The non-performance-linked points, calculated by the following formula based on the base points, will be awarded to Directors who hold office on the last day of each fiscal year of the covered period. The cumulative total (hereinafter referred to as "cumulative total non-performance-linked points") will be calculated by adding up non-performance-linked points awarded for each fiscal year.

Calculation formula for non-performance-linked points : Base Points x 40%

The maximum limit of the number of points to be awarded to Directors during the trust period of the Trust is calculated by multiplying 150,000 points by the number of years of the covered period, and the maximum limit of the number of the Company's shares, etc. to be granted, etc. to Directors from the Trust during the trust period will be equivalent to such maximum limit of the number of points (the "maximum limit of the number of shares to be granted"). Therefore, the maximum limit of the number of shares to be granted for the initial covered period that covers four fiscal years shall be 600,000 shares (if one point shall be equivalent to one share of the Company). Taking into account the maximum limit of money to be contributed by the Company as stated in (2) above, the Company determines the maximum limit of the number of shares to be granted with reference to the stock price range. If the Company continues the Trust pursuant to (2) above, the maximum limit of the number of

shares to be granted during the extended trust period shall be corresponding to the number of points calculated by multiplying 150,000 points by the number of years of new covered period.

(4) Method and Timing for Granting, etc. the Company's Shares, etc. to Directors

1) Performance-linked portion

The Company's shares, etc. relating to the performance-linked portion are granted, etc. after the end of the covered period. The Directors who meet beneficiary requirements shall receive the Company's shares corresponding to 50% of the number of their performance-linked points (odd-lot shares shall be rounded off), and receive money equivalent to the Company's shares corresponding to the number of remaining performance-linked points that are converted into cash under the Trust. In principle, Directors who have received the Company's shares shall continue to hold them while they are in office. If a Director passes away before the end of the covered period (including cases in which the Director passes away before the end of the covered period after resigning due to expiry of term of office or for other reasons), the legal heir(s) of the said Director shall receive money equivalent to the number of the Company's shares corresponding to the number of performance-linked points that are converted into cash under the Trust.

If a Director does not have a securities brokerage account that handles Japanese shares, he or she shall receive money equivalent to the Company's shares corresponding to the number of performance-linked points that are converted into cash under the Trust.

2) Non-performance-linked portion

The Company's shares, etc. relating to the non-performance-linked portion are granted, etc. to Directors covered by the Plan after their resignation.

The Directors who meet beneficiary requirements shall receive the Company's shares corresponding to 50% of the cumulative total non-performance-linked points accumulated before they resign (odd-lot shares shall be rounded off), and receive money equivalent to the Company's shares corresponding to remaining cumulative total non-performance-linked points that are converted into cash under the Trust. If a Director passes away while holding office, the legal heir(s) of the said Director shall receive money equivalent to the number of the Company's shares corresponding to the number of non-performance-linked points accumulated before his or her passing that are converted into cash under the Trust.

If a Director does not have a securities brokerage account that handles Japanese shares, he or she shall receive money equivalent to the Company's shares corresponding to the number of cumulative total non-performance-linked points that are converted into cash under the Trust.

(5) Exercising Voting Rights Related to the Company's Shares under the Trust

To ensure the neutrality for the Company's management, voting rights shall not be exercised for the Company's shares held in the Trust during the trust period.

(6) Treatment of Dividends of the Company's Shares under the Trust

Dividends related to the Company's shares under the Trust will be paid to the Trust, and allocated to trust fees and trust expenses. If, after the allocation to trust fees and expenses, residual assets remain at the expiry of the Trust, such assets will be donated to organizations with no interest in the Company.

(7) Other details of the Plan

Other details of the Plan shall be determined by the Board of Directors on each occasion, such as the establishment of the Trust, changes to the trust agreement, and additional contributions to the Trust.

(Reference) Policy on Compensation for Directors Pertaining to Proposal No. 7

If proposal No.7 is approved at this General Meeting of Shareholders, the Company will revise the policy on the compensation for Directors as follows. The revision of this policy shall be decided by the resolution of the Board of Directors through discussion by the Compensation Advisory Committee.

[Policy on Compensation for Directors]

(1) Basic policy

- The Company shall pay compensation sufficient to recruit exceptional personnel as Directors who are capable of implementing the OMRON Principles.
- The compensation structure shall motivate Directors to achieve sustained improvements in corporate value.
- The compensation structure shall maintain a high level of transparency, fairness and rationality that ensure accountability to shareholders and other stakeholders.

(2) Structure of compensation

- Compensation for Directors shall consist of a base salary, which is fixed compensation, and performance-linked compensation, which varies depending on performance.
- Compensation for Directors (Independent) shall consist of a base salary only, reflecting their roles and the need for maintaining independence.

(3) Base salary

- The amount of a base salary shall be determined according to the roles and responsibilities of each Director on account of the levels of other companies surveyed by a specialized outside organization.

(4) Performance-linked compensation

- The Company shall pay bonuses linked to yearly performance indicators and the degree of the achievement of performance targets, as short-term performance-linked compensation.
- The Company shall pay stock compensation linked to the achievement of the medium-term management plan and the enhancement of shareholders' value as medium-to-long-term, performance-linked compensation.
- The Company shall determine the basic amount of short-term performance-linked compensation and medium-to-long-term, performance-linked compensation based on the compensation composition ratio set forth according to roles and responsibilities.

(5) Governance of compensation

- All the compensation for Directors shall be determined by the resolution of the Board of Directors based on the discussion by and recommendations from the Compensation Advisory Committee.

Business Report (Consolidated)

(April 1, 2016 to March 31, 2017)

1. Current State of the OMRON Group

(1) Consolidated Results

General Overview

In fiscal 2016 (ended March 31, 2017), net sales of the OMRON Group decreased compared with the previous fiscal year, mainly due to the negative impact of currency translation following the appreciating yen. At the same time, operating income increased due to the growth in our Industrial Automation Business and a stronger Group-wide profit structure and other factors that led to improved earnings ability.

The OMRON Group's perception of the economic environment in fiscal 2016 is as follows.

Economic and Market Conditions by Region

Japan:	Personal consumption in Japan experienced a moderate recovery, and capital investment recovered as well.
The Americas:	The economy of the United States continued to expand, driven by improvements in the labor market and steady growth in consumer spending.
Europe:	While the economy in Europe continued to experience a moderate recovery, uncertainty in the outlook remained.
China:	Expanded government investment in Greater China has created a temporary pause in regional economic deceleration.
Asia:	While certain sectors in South Korea are experiencing a recovery, uncertainty remains in Thailand.

Conditions in the OMRON Group's Primary Related Markets

Automotive-related:	Demand in <i>keijidosha</i> (a class of small automobiles defined by Japanese standards) market has recovered mildly, while automotive-related demand has slightly decelerated in the United States and Europe.
Semiconductor-related:	Demand for capital investment was robust both in Japan and overseas.
Machine tool-related:	Demand for capital investment has started to recover recently both in Japan and overseas.
Home appliance and electronic component-related:	Demand for capital investment remained solid, while demand for components recovered slightly.
Healthcare equipment-related:	Personal consumption continued to recover in Japan, and spending remained firm among the emerging markets.

Net sales	JPY 794,201 million, 4.7 percent decrease year on year
Operating income	JPY 67,566 million, 8.5 percent increase year on year
Income before income taxes	JPY 65,492 million, 0.3 percent decrease year on year
Net income attributable to shareholders	JPY 45,987 million, 2.8 percent decrease year on year

Average exchange rates for fiscal 2015:

USD 1 = JPY 108.9 EUR 1 = JPY 119.4

The average exchange rates for the year ended March 31, 2017 were USD 1 = JPY 108.9 (11.3 yen less than the previous fiscal year) and EUR 1 = JPY 119.4 (12.8 yen less than the previous fiscal year).

We sincerely thank all of our shareholders for their support and cooperation.

Results by Business Segment

IAB: Industrial Automation Business

Outline of business

Targets a wide range of customers in major manufacturing industries worldwide to provide manufacturing support through automation devices and services using sensing and control technology.

Major products/services

Programmable controllers, motion controllers, sensing devices, inspection systems, safety devices, industrial robots, precision laser processing equipment, control devices

In Japan, the IAB segment saw growth in digital industry sales and sales to other focus sectors, resulting in higher year-on-year sales in Japan.

Overseas, while sales in the Americas decreased due to the sale of an oil-related business, demand was solid among the automotive-related industries. Sales increased in Europe year on year, due to the contributions of U.S.-based subsidiary acquired by the OMRON Group. The weak euro also led to strong demand for export company products. In Greater China, demand was strong in the digital, infrastructure, and environmental-related industries. Increased digital industry investment in South Korea helped spur greater sales in Asia. Unfortunately, the added negative impact of currency translation following the appreciating yen drove overseas sales down year on year.

Despite the negative impact of currency translation as caused by the strong yen, promotions of our competitive products resulted in improved gross profit margin, leading to higher year-on-year operating income.

As a result, segment sales for the fiscal year totaled JPY 330,959 million, a decrease of 1.5 percent compared with the previous fiscal year, and operating income totaled JPY 52,005 million, an increase of 8.5 percent compared with the previous fiscal year.

EMC: Electronic and Mechanical Components Business

Outline of business

Provides built-in control components for commercial and consumer devices, automotive devices, environmental and energy devices, industrial equipment, built-in components for mobile devices such as mobile phones, etc.

Major products/services

Relays, switches, connectors, amusement components and units, sensors for consumers, face recognition software, image sensing component (HVC: human vision component)

In Japan, lower demand in the domestic amusement industry resulted in lower sales compared with the previous fiscal year.

Overseas, inventory adjustments among our customers in the automotive-related industries in the Americas resulted in lower demand in the region. In Europe, demand in automotive-related industries was strong. In Greater China, demand in the professional/consumer-use markets decreased while demand was solid in the automotive-related industries. In Asia, demand was strong in both the professional/consumer-use markets and the automobile-related industries. However, with the negative impact of currency translation following the appreciating yen, overseas sales for the fiscal year were significantly lower compared with the previous fiscal year.

Despite a decrease in sales and the negative impact of currency translation following the appreciating yen, operating income increased significantly compared with the previous fiscal year as a result of efforts in productivity improvements carried out during the previous fiscal year.

As a result, segment sales for the fiscal year totaled JPY 93,938 million, a decrease of 9.4 percent compared with the previous fiscal year, and operating income totaled JPY 9,428 million, an increase of 11.0 percent compared with the previous fiscal year.

AEC: Automotive Electronic Components Business

Outline of business

Conducts design, production, and sales of automotive electronics to vehicle and component manufacturers throughout the world.

Major products/services

Automotive body electronics controllers, electric power steering controllers, passive entry and push engine start systems, keyless entry systems, power window switches and various automotive switches, power conversion units and voltage monitoring units for electric vehicles

In Japan, affected by declining sales of *keijidosha*, sales in Japan for the fiscal year decreased compared with the previous fiscal year.

The solid U.S. economy contributed to expanded demand in the Americas. In Greater China, demand expanded, supported by strong sales of automobiles backed by government tax reduction measures.

Unfortunately, the negative impact of the yen appreciation drove overseas sales down year on year.

Operating income decreased compared with the previous fiscal year, mainly due to lower sales and the negative impact of currency translation following the appreciating yen.

As a result, segment sales for the fiscal year totaled JPY 132,060 million, a decrease of 5.6 percent compared with the previous fiscal year, and operating income totaled JPY 7,127 million, a decrease of 2.9 percent compared with the previous fiscal year.

SSB: Social Systems, Solutions and Service Business

Outline of business

Creates solutions using sensing & control technologies, software, and total maintenance services for safer, more secure, and more comfortable communities, and works with customers to contribute to building an optimized society.

Major products/services

Railway station service systems, traffic and road management systems, card payment services, security and safety solutions, energy management business and related maintenance business

In the public transportation system business, the demand cycle for upgrading station equipment reached a low point during fiscal 2016. As such, sales decreased significantly compared with the previous fiscal year.

In the traffic and road control systems business, demand for both upgrades to traffic-related terminals and investment in expressways was weak. As a result, sales for the year decreased compared with the previous fiscal year.

In the environmental solutions business, weak demand in the solar power generation-related market resulted in a substantial decrease in sales of this business for the year.

Despite lower sales for the year, operating income was significantly higher, mainly due to initiatives in productivity improvement.

As a result, segment sales for the fiscal year were JPY 67,129 million, a decrease of 13.4 percent compared with the previous fiscal year, and operating income totaled JPY 4,008 million, an increase of 25.3 percent compared with the previous fiscal year.

HCB: Healthcare Business

Outline of business

Provides numerous types of products and services worldwide that helps with the prevention, improvement, and management of lifestyle diseases from household-use measurement devices to professional medical equipment in order to contribute to the health and comfortable life for people.

Major products/services

Digital blood pressure monitors, digital thermometers, body composition monitors, pedometers and activity meters, electric toothbrushes, sleep time monitors, sleep monitors, low-frequency therapy equipment, massagers, blood glucose monitors, nebulizers, oxygen generators, ECGs, vascular screening devices and visceral fat monitors

In Japan, despite steady growth in sales of online healthcare equipment for household use, demand for these products was weak at big home appliance retailers in suburban areas. The sales for equipment for medical institutions decreased mainly due to the transfer of shares of a medical equipment subsidiary. As a result, domestic sales for the year decreased compared with the previous fiscal year.

Overseas, in the Americas, sales of blood pressure monitors remained strong in Brazil. Sales of new blood pressure monitors remained strong in Russia, and the expansion of dealer networks throughout Europe contributed to ongoing solid performance throughout the region. In Greater China, the online market continued to expand while demand in pharmacies and other store channels was weak. Demand was strong in Asia. Unfortunately, the strong negative impact of currency translation following the appreciating yen contributed to lower sales for the year.

Despite the negative impact of currency translation following the appreciating yen, operating income increased substantially compared with the previous fiscal year, reflecting productivity improvement initiatives.

As a result, segment sales for the fiscal year were JPY 101,295 million, a decrease of 6.3 percent compared with the previous fiscal year, and operating income totaled JPY 8,535 million, an increase of 17.2 percent compared with the previous fiscal year.

Businesses under direct control of headquarters (Other Businesses)

(Environmental Business, Electronic Systems and Equipment Business, Micro Devices Business, Backlight Business)

Outline of business

Develops and strengthens businesses as well as explores and develops new business fields under the direct control of headquarters.

Major products/services

*Environmental Business

Solar power conditioners, electricity storage system, electrical power measuring devices, power protection devices

*Electronic Systems and Equipment Business

Uninterruptible power supplies, embedded computers for manufacturing industries, OEM development and manufacturing of electronic equipment

*Micro Devices Business

MEMS pressure sensors, MEMS thermal sensors, MEMS flow sensors, MEMS microphones, analog ICs, contract chip manufacturing services
(MEMS: Micro-Electro-Mechanical Systems)

*Backlight Business

High-quality backlight units for LCDs

In the environmental business, while demand remained weak in the solar power generation-related market, sales were higher compared with the previous fiscal year. This improvement in performance was mainly due to our expanded lineup of power storage systems.

In the electronic systems and equipment business, demand was strong for uninterruptible power supplies and contract services for development and production of electronic devices. Accordingly, sales increased compared with the previous fiscal year.

In the micro devices business, due to weak demand for smartphone microphones, sales decreased compared with the previous fiscal year.

In the backlight business, sales decreased substantially compared with the previous fiscal year, mainly due to falling prices in the smartphone market and weak demand for high-end smartphones in Greater China.

Operating loss was kept low compared with the previous fiscal year, thanks to the efficient management of fixed expenses, even when there was the negative impact of currency translation due to the stronger yen.

As a result, segment sales were JPY 63,264 million, an increase of 0.4 percent compared with the previous fiscal year, and operating loss totaled JPY 2,175 million.

(3) Capital Procurement

Due to the efficient use of the Group's internal capital, the Group did not conduct any material external procurement of capital necessary for its business activities, including working capital and capital investments, during the fiscal year.

(4) Issues Facing the Company

The OMRON Group aims to become a “global value-creating group that is qualitatively and quantitatively superior” by conducting management based on “Value Generation 2020” (VG2020), its ten-year long-term vision, which began in 2011.

As the second stage of VG2020, the EARTH-1 STAGE for the three years from fiscal 2014 to fiscal 2016 sets forth a policy of “Establishing a ‘self-driven’ growth structure” that can grow based on its own power in any operating environment.

[Results for fiscal 2016 and summary of EARTH-1 STAGE]

Fiscal 2016 was the last year of EARTH-1 STAGE. During the year, our goals were “to rebuild our profit structure” and “to create an engine for self-driven growth.” We worked to strengthen our profit structure, as well as to generate businesses and innovations that drive growth. The strong yen and other factors combined to drive net sales down for fiscal 2016. Meanwhile, significant growth in our mainstay Industrial Automation Business and steady growth in our earnings ability driven by improved gross profit margin led to year-on-year growth in operating income.

During the three years of EARTH-1 STAGE, we concentrated on Existing Business Strategy, Super-Global Growth Strategy, and New Business Strategy for the Optimization Society. The following is a review of our progress.

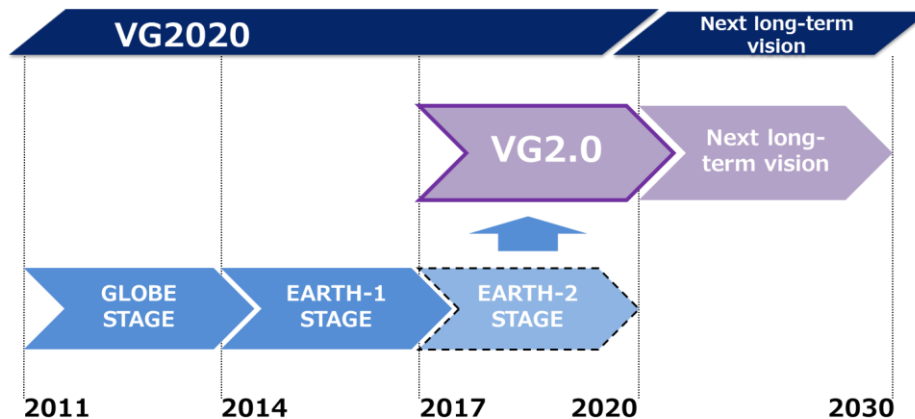

In terms of executing Existing Business Strategy, we focused on maximizing the strength of our Industrial Automation Business. We improved our ability to provide technologies to solve customer issues by expanding our mainstay businesses in four focus industries and launching automation centers. We also acquired US-based motion controller and robot manufacturing companies, and we took on other initiatives to accelerate the creation of new value and build a foundation for future business growth. As a result, we accomplished our EARTH-1 STAGE sales target for our Industrial Automation Business.

In pursuit of our Super-Global Growth Strategy, we achieved high growth rates in our Industrial Automation Business and our Healthcare Business, particularly in China and Asia. The entire OMRON organization came together to support the OMRON Total Fair we held in Thailand and Indonesia, which led to a large number of new business discussions. In our Healthcare Business, we acquired a Brazilian nebulizer company and engaged in other measures to grow sales steadily throughout Central and South America. Further, we strengthened our business foundation by bolstering our production centers in Mexico and Indonesia and by hiring and training core human resource to lead our businesses in Asia.

As for New Business Strategy for the Optimization Society, we pursued industry-academic partnerships, alliances with other companies and collaboration with external resources to take on the challenge to generate new businesses. However, we have not successfully created new businesses with the scale and growth of our Environmental Solutions Business yet. We recognize that we have issues requiring further work.

The initiatives above were our main means to improve our earnings ability in the EARTH-1 STAGE through higher gross profit margins. At the same time, we accelerated our transition to a business foundation for sustained revenue growth. We were also able to put our Industrial Automation Business on a new growth path. At the same time, due to the impact of changes in the business environment and other factors, we did not achieve either of our initial quantitative goals of JPY 900 billion in sales and operating income margin of at least 10%. We believe that we are on our way to establishing a self-driven growth structure, hence our next medium-term management plan will continue this theme.

Stepping up growth with “VG2.0” in lieu of the LAST STAGE of VG2020

[VG2.0 and the Fiscal 2017 Plan]

With the conclusion of EARTH-1 STAGE, fiscal 2017 marks the start of our next medium-term management plan (through fiscal 2020). Our intent is not to merely make EARTH-2 STAGE as an extension of EARTH-1 STAGE. Instead, we have created a new medium-term management plan, VG2.0. The business environment surrounding the OMRON Group today has changed significantly compared to 2010, when we created our VG2020 plan. In particular, new technologies such as Artificial Intelligence (AI), Internet of Things (IoT) and robotics have evolved far beyond what anyone could have imagined back in 2010. These technologies are changing our society in many ways. The evolution of these technologies is an exact reflection of the Sensing & Control + THINK, our core technologies that we have pursued. This is an opportunity for us to create new value that solves social issues. VG2.0 is an opportunity for us to look ahead as far as the year 2030, challenging ourselves to create new value for the world. Our qualitative goal under this plan remain the same as VG2020: to become a “global value-creating group that is qualitatively and quantitatively superior.” Our quantitative goals are to reach JPY 1 trillion in sales and JPY 100 billion in operating income. To achieve these goals, we must integrate technological innovation and evolve our core technologies. We actively engage in growth investment (mainly research and development) as we pursue our corporate-wide policy of achievement of self-driven growth by creating innovation originated by technological evolution. VG2.0 includes three basic strategies:

1) Defining focused domains

Under VG2.0, we have defined four focused domains which we believe leverage our strengths: Factory Automation, Healthcare, Mobility, and Energy Management. We will not work separately at individual divisions, but cooperate among business divisions or head office functional divisions to enhance or rebuild our underlying businesses for each of these four domains.

2) Advancing the business model

Under this strategy, we do not intend to deliver products or services individually. Instead, we plan to create new value by combining IoT, AI, and other new technologies into products and services to build total solutions of “Products + Information + Services.” By doing this, we believe we will provide more comprehensive solutions to social issues with greater speed.

3) Strengthening our core technology

Since our founding, the OMRON Group has created unique products and businesses from customer-centric point of view. Under VG2.0, we intend to identify cross-divisional and individual division-owned core technologies (AI, robotics, etc.), and continue refining them through Group-wide efforts. We intend to repeat cycles of trial and error to provide technology as a means to solve the larger social issues based on our customer needs.

To accelerate the achievement of these pivotal strategies, we actively promote cooperation with external partners on a global scale, including customers, universities and research institutes, and companies from other industries. Fiscal 2017 represents the first year of operating under our VG2.0 medium-term management plan. Our basic management policy for the year is defined as ~Start up VG2.0~ A Firm First Step Toward Innovation. Our quantitative goals for the year will be sales of JPY 810 billion, gross profit margin of 40.6%, operating income of JPY 68 billion, net income attributable to shareholders of JPY 48.5 billion, and ROIC of 10% or greater. We will come together as a united OMRON Group, working diligently to achieve three basic scenarios: Group growth driven by focused domains; Profit creation through improved Group-wide earnings ability; and Stronger investment in growth fields and technologies.

1) Policy on Determining Amount of Compensation, etc., and Methods Used for Calculation

Based on a resolution of the Board of Directors, the Company has a Compensation Advisory Committee to increase objectivity and transparency with respect to the compensation of Directors and Audit & Supervisory Board Members. The Compensation Advisory Committee is composed of five (5) members, excluding the Chairman of the Board and President of the Company, and is chaired by a Director (Independent) on the Board of Directors, and sets the Company's fundamental principles for compensation of officers.

For the compensation of Directors, the Compensation Advisory Committee is consulted and discusses the compensation of each individual, then makes recommendations based on the Company's compensation principles. Upon the recommendations, the amount of compensation for each Director is determined by resolution of the Board of Directors, within the scope of the aggregate compensation amounts for all Directors set by resolution of the General Meeting of Shareholders.

In addition, the Company has introduced medium-term performance-linked bonuses and issued performance-linked stock acquisition rights in an effort to give Directors incentive to achieve the medium-term management targets and to strengthen the governance of compensation.

In response to these, the governance system regarding compensation of Directors, etc. consists of: (1) base salary, (2) yearly performance-linked bonuses, and (3) medium-term performance-linked bonuses, stock compensation and performance-linked stock acquisition rights. Through this governance system regarding compensation, etc., the Company aims for encouraging Directors to continually enhance corporate value by positively achieving short, medium and long-term management targets.

The amount of compensation for each Audit & Supervisory Board Member is determined by discussions among the Audit & Supervisory Board Members, within the scope of the aggregate compensation amounts for all Audit & Supervisory Board Members set by resolution of the General Meeting of Shareholders.

Fundamental principles and basic policies for the compensation of Company's Officers are as described on page 45.

2) Amount of Compensation of Directors and Audit & Supervisory Board Members

(JPY millions)

Title	Number (Persons)	Base Salary	Yearly Performance-Linked Bonuses	Medium-term Performance-Linked Bonuses	Aggregate Compensation
Directors	8	380	149	59	588
[Directors (Independent)]:	[3]	[36]	[—]	[—]	[36]
Audit & Supervisory Board Members	5	82	—	—	82
[Audit & Supervisory Board Members (Independent)]:	[3]	[18]	[—]	[—]	[18]
Total	13	462	149	59	670
[Outside Officers (Independent) included in total]:	[6]	[54]	[—]	[—]	[54]

Notes: 1. The above amounts include compensation paid to one (1) Audit & Supervisory Board Member (Independent) who retired at the close of the 79th Ordinary General Meeting of Shareholders held on June 23, 2016.

2. The maximum limit of the aggregate compensation of Directors was set at JPY 35 million per month at the 63rd Ordinary General Meeting of Shareholders held on June 27, 2000. In addition, the maximum limit of the aggregate compensation of Audit & Supervisory Board Members was set at JPY 7 million per month by resolution of the 60th Ordinary General Meeting of Shareholders held on June 27, 1997.

3. The above base compensation of Directors includes the amount paid as stock compensation to Directors, excluding Directors (Independent).

4. The above yearly performance-linked bonuses are the amounts that the Company plans to pay, provided that the proposal No. 6 "Payment of Yearly Performance-Linked Bonuses to Directors" at this Ordinary General Meeting of Shareholders is approved and resolved as originally proposed.

5. The maximum limit of the total payment of medium-term performance-linked bonuses was set at JPY 600 million at the 77th Ordinary General Meeting of Shareholders held on June 24, 2014. The medium-term performance-linked bonuses are planned to be paid based on the consolidated operating income for the fiscal year ended March 31, 2017, which is the final year of the medium-term management plan targeting the three years from fiscal 2014 through fiscal 2016.
6. No Directors of the Company received any employee wages other than their compensation as Directors.

Basic Principles of Compensation for Officers

- Compensation for Directors and Executive Officers shall be based on the implementation of the Company's motto and corporate principles (the Omron Principles).
- The Company shall pay compensation sufficient to recruit, hire and maintain exceptional personnel as officers.
- The compensation structure shall contribute to long-term maximization of corporate value by providing motivation for Directors and Executive Officers.
- The compensation structure shall maintain a high level of transparency, fairness and rationality, to ensure account ability to shareholders and other stakeholders.
 - To ensure transparency, fairness and rationality in the compensation for individuals, each Director / Executive Officer's compensation shall be set by consultation with the Compensation Advisory Committee.
- The purpose of compensation shall be made clear, and a compensation plan shall be created according to the roles and responsibilities of each Director / Executive Officer.

Compensation Policy for Directors

- Compensation for Directors shall consist of a base salary, yearly performance-linked bonuses, and medium-to-long-term, performance-linked compensation.
 - The Company shall provide base salaries sufficient to recruit, hire and maintain exceptional personnel capable of implementing the Company's motto and the Omron Principles.
 - The Company shall provide yearly performance-linked bonuses as performance incentives with emphasis on yearly results.
 - The amount of yearly performance-linked bonuses shall be based on a standard amount for each position, and shall be determined according to the degree of achievement and growth rate for evaluation indicators for bonuses, including income before income taxes, return on invested capital (ROIC), net income attributable to shareholders, and cash dividends per share.
 - To ensure thorough implementation of the Company's long-term management plan, the Company shall provide the following two types of compensation linked to medium-to-long-term performance as incentives for meeting medium-term management targets.
 - The Company shall pay medium-term, performance-linked bonuses depending on the achievement of medium-term management targets.
 - The Company shall grant stock compensation (Note 1) as compensation linked to maximization of corporate value (shareholders' value).
- Separate from the compensation stated above, the Company shall issue performance-linked stock acquisition rights. (Note 2)
 - Performance-linked stock acquisition rights shall be issued under the condition of the achievement of medium-term management targets by Directors and a rise of the Company's stock price. The objectives are to create medium-to long-term shareholder value and encourage Directors to own shares of the Company.
- Compensation for Directors (Independent) shall consist of a base salary only, reflecting their roles and the need for maintaining independence.
- No retirement bonuses shall be paid.
- The level of compensation shall be determined by taking into account the levels of other companies surveyed by a specialized outside organization.

Compensation Policy for Audit & Supervisory Board Members

- Compensation for Audit & Supervisory Board Members shall consist only of a base salary that reflects their roles. It shall be sufficient to recruit, hire and maintain excellent personnel.
- No retirement bonuses shall be paid.
- The level of compensation shall be determined by taking into account the levels of other companies surveyed by a specialized outside organization.

- Notes: 1. The guidelines for stock compensation shall consist of a fixed amount of compensation given each month to Directors, who will use it to make monthly purchases of the Company's stock (through the officers' stockholding association) and hold this stock during their term of office.
2. The performance-linked stock acquisition rights are issued with charge at a price equivalent to the fair value of the stock acquisition rights, thus the amount to be paid in exchange for stock acquisition rights is not favorable for individuals who are allotted the stock acquisition rights. Because of this, the stock acquisition rights do not fall under the category of compensation for Directors, and thus they shall be issued via a resolution by the Company's Board of Directors.

(4) Policy for Dismissal or Non-Reappointment of Accounting Auditor

The Company may dismiss or decline to reappoint the Accounting Auditor for any of the following reasons:

- 1) If deemed necessary, such as in cases where the execution of duties by the Accounting Auditor has been disrupted, the Audit & Supervisory Board determines the contents of the proposal for the dismissal or non-reappointment of the Accounting Auditor to be submitted to the shareholders' meeting.
- 2) If the Audit & Supervisory Board judges that the Accounting Auditor falls under any of the numbered items in Article 340-1 of the Companies Act, it dismisses the Accounting Auditor with the consent of all Audit & Supervisory Board Members. In such cases, the Audit & Supervisory Board Member who has been selected by the Audit & Supervisory Board will report the fact of and the reason for the dismissal of the Accounting Auditor at the first shareholders' meeting convened after the dismissal of the Accounting Auditor.

6. Systems and Policies of the Company

(1) Corporate Principles of the OMRON Group

In 1959, Kazuma Tateishi, the Company's founder, set forth "To improve lives and contribute to a better society" as Our Mission for the OMRON Group. Subsequently, the spirit of Our Mission was developed into the corporate principles of the OMRON Group, and has been revised in line with the changing times, while serving as the driver as well as the unifying force for business development leading to countless innovations and contributing to the development of society and the improvement of people's lives.

The OMRON Group is accelerating the globalization through "Value Generation 2020" (VG2020), its long-term vision towards the year ending March 31, 2021 (fiscal 2020), and accordingly the OMRON Group aims for improvements in corporate value through the resolution of various social issues around the world. To achieve this end, it is becoming increasingly important that all employees around the world take action based on an understanding of our stance towards the corporate principles. Currently the Group is reinforcing efforts to put the corporate principles into practice on a global scale.

Going forward, the OMRON Group will fulfill its corporate social responsibility by practicing the corporate principles as it aims for sustained improvements in corporate value.

Our Mission

To improve lives and contribute to a better society

Our Values

The values that are important for us

- Innovation Driven by Social Needs
Be a pioneer in creating inspired solutions for the future.
- Challenging Ourselves
Pursue new challenges with passion and courage.
- Respect for All
Act with integrity and encourage everyone's potential.

(2) Management Philosophy of the OMRON Group

The OMRON Group has declared the following Management Philosophy to all stakeholders, representing the OMRON Group's stance and way of thinking towards management to put the corporate principles into practice through business. It will continue to evolve according to the demands of the times and society.

Management Philosophy

We believe a business should create value for society through its key practices.

We are committed to sustainably increasing our long-term value by putting Our Mission and Values into practice.

- We uphold a long-term vision in our business practices to create solutions to society's needs.
- We operate as a truly global company through our fair and transparent management practices.
- We cultivate strong relationships with all of our stakeholders through responsible engagement.

(3) Corporate Governance of the Company

Basic Stance for Corporate Governance of the Company

At the OMRON Group, corporate governance is defined as the system of processes and practices based on the Omron Principles and the Omron Management Philosophy. The system is intended to ensure transparency and fairness in business and speed up management decisions and practices. This is done by connecting the entire process from oversight and supervision all the way to business execution in order to boost the OMRON Group's competitive edge. OMRON's corporate governance also involves building such a system and maintaining its proper function. The ultimate objective is to achieve sustained enhancement of corporate value by earning the support of all stakeholders.

Reasons for OMRON's Selection of its Current Corporate Governance System

The Company has chosen to adopt the organizational structure of a "Company with Audit & Supervisory Board."

The Board of Directors strives toward sustained improvements in the OMRON's Group corporate value by exercising oversight functions over the overall management through the election of Directors, Audit & Supervisory Board Members and Executive Officers; the determination of compensation for Directors and Executive Officers; and making important operational decisions.

The Audit & Supervisory Board and the Audit Supervisory Board Members work to secure the integrity of the OMRON Group and the sustained improvement of corporate value by conducting audits on legality and appropriateness of Directors' duties, and the fulfillment of the Board of Directors' oversight obligations. In addition, each Audit & Supervisory Board Member can exercise his/her authority on his/her own as a single-person organ in which the power of final decision-making is given to one person. This allows them to play a crucial role in strengthening internal controls.

Furthermore, to complement the oversight functions of the Board of Directors, four voluntary advisory committees are attached to the Board of Directors. The Personnel Advisory Committee, the CEO Selection Advisory Committee and the Compensation Advisory Committee are chaired by a Director (Independent), and the majority of each committee should be composed of Directors (Independent). The CEO Selection Advisory Committee, in particular, is dedicated to the deliberation and nomination of candidates for CEO, which is the top-priority matter in management oversight. In addition, the Corporate Governance Committee, established for the purpose of enhancing corporate governance, is also chaired by a Director (Independent), and exclusively comprises Directors (Independent) and Audit & Supervisory Board Members (Independent). Through these unique initiatives, the Company has established and adopted a system that enhances the transparency and objectivity of management's decision-making process.

By incorporating the best aspects of the corporate governance system of a so-called "Company with Committees (Nomination, etc.)" in this way, we have created the kind of hybrid corporate governance structure that we feel is most appropriate for OMRON as a Company with Audit & Supervisory Board.

OMRON Corporate Governance Policies

In accordance with this basic stance for Corporate Governance, the OMRON Group has set forth the corporate governance policies (the "Policies") as the foundation for the Group's pursuit of continuous improvement of its corporate governance.

[Organizational Structure]

The OMRON Group has chosen to adopt the organizational structure of "Company with Audit & Supervisory Board" as stipulated by the Companies Act. To complement the functions of the Board of Directors, four advisory committees are in place, namely the Personnel Advisory Committee, the CEO Selection Advisory Committee, the Compensation Advisory Committee and the Corporate Governance Committee. By incorporating the best aspects of the governance system of a "Company with Committees" as well, the OMRON Group has established and adopted a hybrid type governance structure.

[Roles and Responsibilities of the Board of Directors]

The Board recognizes its fiduciary responsibility to shareholders and assumes the responsibility of sustainably improving the OMRON Group's corporate value through appropriate exercise of its authority.

- To fulfill the above responsibilities, the Board exercises oversight functions over the overall management in order to ensure fairness and transparency of management practices. The Board does so through election of Directors, Audit & Supervisory Board Members, and Executive Officers. It also determines compensation for Directors and Executive Officers, and makes important operational decisions.
- The Board is also responsible for establishing a system to respond to cases when Audit & Supervisory Board Members or Accounting Auditors have discovered fraud within the OMRON Group and demanded appropriate remedies or pointed out deficiencies or problems.

[Composition of Board of Directors]

- Management oversight and business execution are kept separate and a majority of the Board shall consist of Directors who are not involved with business execution.
- At least one-third of the Board shall consist of Directors (Independent).
- The Personnel Advisory Committee concerning nomination and personnel evaluation of Directors, Audit & Supervisory Board Members, and Executive Officers; and the Compensation Advisory Committee

concerning remuneration of Directors and Executive Officers; are attached to the Board of Directors. The CEO Selection Advisory Committee is dedicated to the deliberation and nomination of candidates for CEO, which is the top-priority matter in management oversight.

- The Personnel Advisory Committee, the Compensation Advisory Committee and the CEO Selection Advisory Committee are chaired by a Director (Independent), and the majority of each committee should be composed of Directors (Independent).
- The Corporate Governance Committee, established for the purpose of enhancing corporate governance, is also to be chaired by Director (Independent), and comprises Directors (Independent) and independent Audit & Supervisory Board Members.
- The lead Director (Independent) assumes the position of chair of the Corporate Governance Committee.

[Chairman of the Board of Directors Meeting]

- To clarify the oversight function of Directors, the chairman of the Board without authority to represent the company will take on the position of chair of the Board of Directors Meeting.
- The chairman should not be involved with business execution.
- The chair of the Board shall strive to facilitate free, open, and constructive discussions to take place at Board of Directors meetings.

[Advisory Committees]

(1) The Personnel Advisory Committee

In accordance with the relevant rules, the Personnel Advisory Committee is intended to bolster the management oversight functions of the Board of Directors by enhancing transparency and objectivity of decision-making process regarding nomination of candidates for Directors, Audit & Supervisory Board Members and Executive Officers.

- The Personnel Advisory Committee deliberates and sets criteria for the selection of Directors, Audit & Supervisory Board Members and Executive Officers.
- To swiftly respond to the need for global-scale growth and greater competitive strength, as well as significant changes in the business environment, the Personnel Advisory Committee shall work to provide diversity in the Board of Directors, Audit & Supervisory Board and among Executive Officers.
- The Personnel Advisory Committee receives reports from the chairman of the Board of Directors Meeting on results of interviews with each Director, in order to evaluate each Director.
- In response to consultation from the chairman of the Board of Directors Meeting (for Directors), who has been entrusted by the Audit & Supervisory Board (for its Members), and from the CEO (for Executive Officers), the Personnel Advisory Committee deliberates on personnel evaluation of such executives in accordance with the selection criteria established by the committee. Also considered is the degree of implementation of the Omron Principles, achievement of performance targets, etc. Based on these, the Personnel Advisory Committee makes recommendations to the Board of Directors.
- Based on the committee's recommendations, the Board of Directors determines the proposition regarding the election of Directors to be resolved at the general shareholders meeting.
- Based on the committee's recommendations, the Board of Directors, with the consent of the Audit & Supervisory Board, determines the proposition regarding the election of Audit & Supervisory Board Members to be resolved at the general meeting of shareholders.
- The propositions regarding the election of Directors and Audit & Supervisory Board Members shall describe and explain brief personal records of the candidates (including current posts and duties at OMRON for candidates for Directors), reasons for nominating the candidates, and other important posts assumed by the candidates.

(2) The CEO Selection Advisory Committee

In accordance with the relevant rules, the CEO Selection Advisory Committee is intended to bolster the management oversight function of the Board of Directors by increasing the transparency and objectivity of the decision-making process regarding nomination of candidates for CEO.

- The CEO Selection Advisory Committee annually deliberates about CEO succession planning and contingent succession planning to take over the position in emergency situations and makes recommendations to the Board of Directors.
- Based on the CEO Selection Advisory Committee's recommendations, the Board of Directors determines the candidate and sets a proposal to be resolved at the general meeting of shareholders.

(3) The Compensation Advisory Committee

In accordance with the relevant rules, the Compensation Advisory Committee is intended to bolster the management oversight function of the Board of Directors by increasing transparency and objectivity in determining compensation amounts for each Director and Executive Officer.

- The Compensation Advisory Committee deliberates on and establishes the Compensation Policy for Directors and Compensation Policy for Executive Officers.
- In response to consultation from the chairman of the Board of Directors Meeting (for Directors), and from the CEO (for Executive Officers), and based on the above-mentioned policies, the Compensation Advisory Committee deliberates on compensation for Directors and Executive Officers.
- Compensation for Directors based on the above-mentioned deliberation is as follows:
 - Compensation for Directors shall consist of a base salary, yearly performance-linked bonuses, medium-term performance-linked bonuses, and stock compensation. The amount of yearly performance-linked bonuses and medium-term performance-linked bonuses will be determined according to the degree of achievement of management targets.
 - Separate from medium-term performance-linked bonuses and stock compensation, performance-linked stock acquisition rights shall be issued as one of the medium- to long-term incentives.
 - Compensation for Directors (Independent) shall consist of a base salary only, reflecting their roles and the need for maintaining independence.
- Based on the Compensation Advisory Committee's recommendations, the Board of Directors determines the amounts of compensation for individual Directors within the scope of the sum of compensation amounts for all Directors set by resolution of the general meeting of shareholders.

(4) Corporate Governance Committee

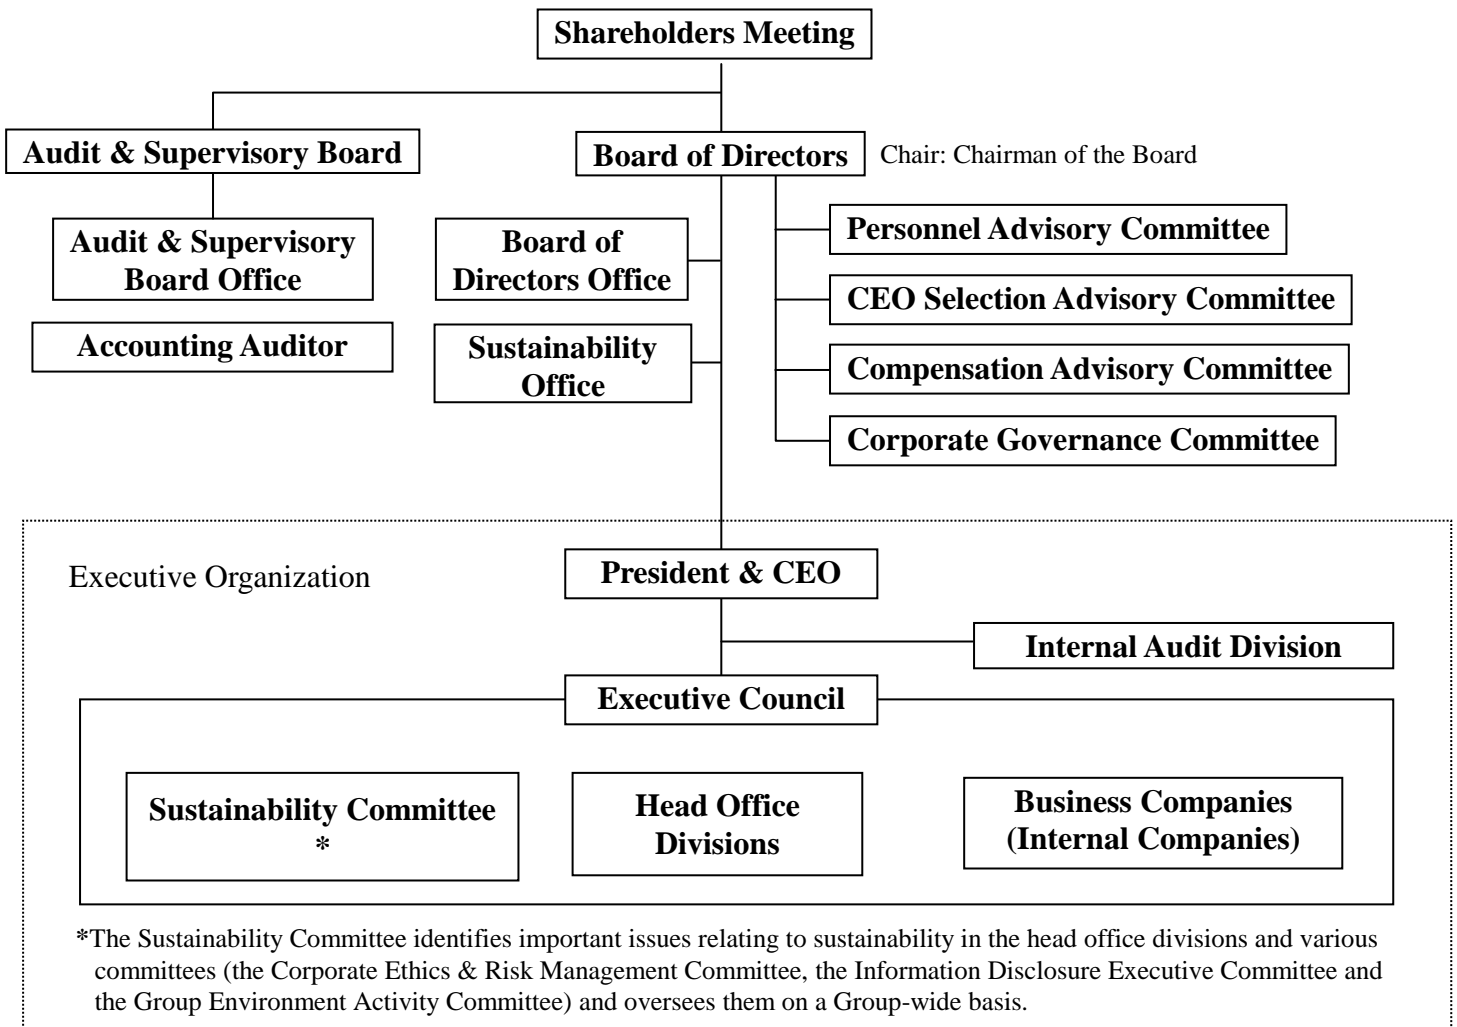

In accordance with the relevant rules, the Corporate Governance Committee is intended to enhance the transparency and fairness of management practices from the standpoint of all stakeholders and continuously take steps to enhance corporate governance.

- The Corporate Governance Committee evaluates the composition, operation, and effectiveness of the Board of Directors, and reports the results of evaluation to the Board of Directors.
- The Corporate Governance Committee draws up "Independence Requirements for Outside Directors and Audit & Supervisory Board Members (Independent)" and makes recommendations to the Board of Directors.
- Regarding corporate governance-related matters other than the above, the Corporate Governance Committee, in response to consultation from the Board of Directors or the chairman of the Board of Directors Meeting, makes recommendations to the Board.

Overview of the Results of the Evaluation of the Board of Directors' Effectiveness

The Company conducts analysis and evaluation of the Board's effectiveness so that the members of the Board will enhance the function and the effectiveness of the Board to realize the sustained improvements in corporate value by recognizing, sharing and improving the direction to be taken by the Board and the issues arising from such direction.

[Method of evaluation of the Board's effectiveness]

Evaluation on the Board's effectiveness is conducted by the Corporate Governance Committee chaired by a Director (Independent) and comprising Directors (Independent) and Audit & Supervisory Board Members (Independent).

In conducting the evaluation of the Board's effectiveness, following on from the previous year, all Directors comprising the Board of Directors and Audit & Supervisory Board Members were asked to complete an anonymous self-evaluation questionnaire. This year's topics included evaluation of the policy for the operation of the Board of Directors, which was formulated in fiscal 2016, and the specific initiatives taken based on the said policy, in addition to such topics as the details of deliberation by the Board and its operation methods.

The Chairman of the Board of Directors Meeting also conducted individual interviews with each of the Directors and exchanged opinions on improving the effectiveness of the Board.

The Corporate Governance Committee analyzed the results of the self-evaluations and the interviews with the Chairman of the Board of Directors Meeting, sorted out the issues and reported the results of the evaluation of the Board's effectiveness to the Board of Directors.

Based on these evaluation results, the Board of Directors formulated the policy for the operation of the Board of Directors for fiscal 2017.

[Results of evaluation of the Board's effectiveness]

The Corporate Governance Committee confirmed that the governance system currently adopted by the Company and the operation of the system worked properly without any problems.

Additionally, the Committee confirmed regarding the status of the initiatives based on the Board's operation policy formulated in FY2016 and future issues, as described below:

Initiatives based on the policy for the operation of the Board of Directors for fiscal 2016:

- The Board of Directors discussed medium-to-long-term management strategies and approved "VG2.0," the medium-term management plan, which includes specific initiatives and the attainment targets.
- The Board of Directors formulated a policy for Group-wide efforts toward ESG (*) (sustainability policy), and developed a system for overseeing underlying materiality in the policy and initiatives to address the materiality.
- The Board of Directors, regarding the delegation of authorities to executive organizations, revised the Board of Directors Rules and delegated its authorities relating to certain matters to be deliberated.

(*) ESG is an acronym for Environment, Social and Governance.

Future issues

- Demonstrating the oversight function of the Board of Directors toward the achievement of "VG2.0," the medium-term management plan.

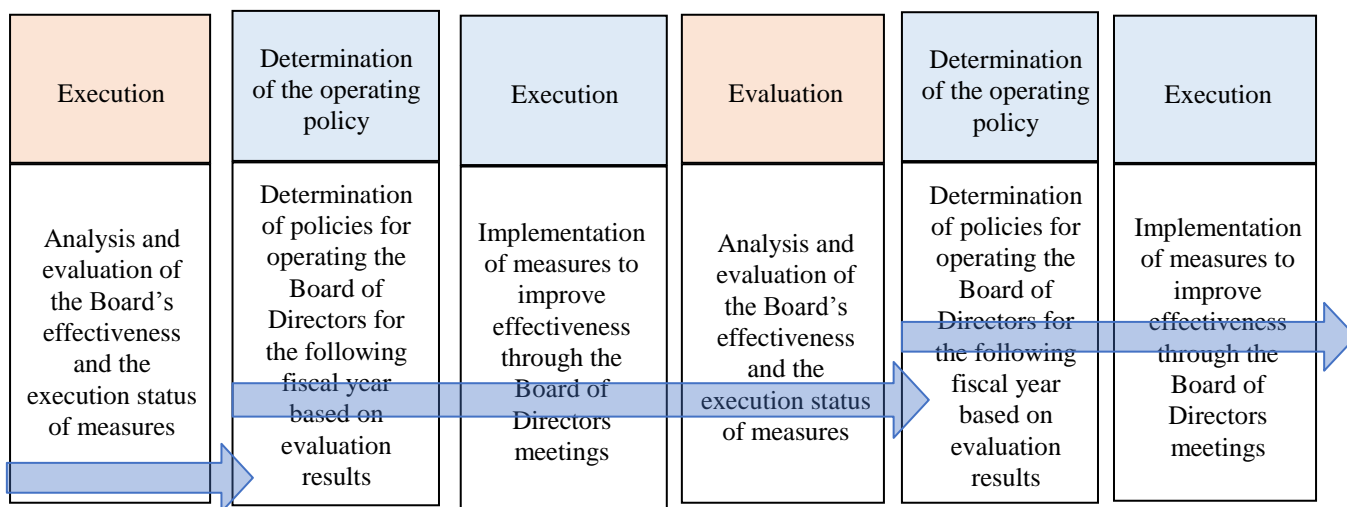

[Policy for the operation of the Board of Directors for the following fiscal year]

Based on the evaluation results by the Corporate Governance Committee, the Board of Directors shall demonstrate its oversight function to ensure the achievement of the medium-term management plan "VG2.0," which began in fiscal 2017, with emphasis on the following three areas.

- Confirming the progress of the short-term management plan
- Human resources strategies and technical strategies that are the key to medium-term management strategies
- Initiatives to address materiality which have been identified based on the sustainability policy

The Company makes ongoing efforts in enhancing the Board’s effectiveness to achieve sustained improvements in corporate value.

(4) Systems to Ensure that Execution of Directors’ Duties Conforms to Laws and the Articles of Incorporation and Other Systems to Ensure Appropriateness of Operations (Basic Policy on Maintenance of Internal Control System) and Overview of Operational Status of Internal Control System

Basic Policy on Maintenance of Internal Control System

Based on the Companies Act and the Ordinance for Enforcement of the Companies Act, the Company has set the Internal Control System of the Company and its subsidiaries (“the OMRON Group”) as follows:

1. System to Ensure that Execution of Duties by Directors and Employees of the OMRON Group Conforms to Laws and Regulations and the Articles of Incorporation

- (1) The OMRON Group Management Policies and the OMRON Group Rules have been established to ensure transparency, fairness and the global nature of management in the OMRON Group, as well as serve as the management base for conducting appropriate and timely decision-making.
- (2) The Company has familiarized its officers and employees with the OMRON Group Rules for Ethical Conduct as specific action guidelines for practicing “social responsible corporate management” and enforces strict compliance.
- (3) The key theme of “socially responsible corporate management” is promoting corporate ethics and compliance in the OMRON Group. The Corporate Ethics & Risk Management Committee has been established as an organization to promote this key theme. As specific activities, the President himself issues instructions on corporate ethics and compliance, providing opportunities to disseminate awareness. In addition, the Company conducts regular training and education for employees on corporate ethics and compliance.
- (4) The Company has set up a whistleblower hotline both inside and outside the Company to receive reports of acts that are, or could potentially be, in violation of the OMRON Group Rules for Ethical Conduct, work rules or laws. In accordance with laws and internal company rules, the content of these reports is protected as confidential, and employees may not be given unfavorable treatment for making such reports.

- (5) With the aim of realizing highly transparent management, the Company positions information disclosure as an important task, and has established an Information Disclosure Executive Committee directly under the President to promote the disclosure. The Committee engages in activities to ensure the accuracy, timeliness and completeness of information disclosure across the OMRON Group, and proactively makes disclosure to the public according to the standard set out by the Group.
- (6) The Company has set up an internal control department directly under the President to conduct operational audits.
- (7) To ensure the propriety of the OMRON Group's financial reporting, a system has been established that enables reports to be submitted appropriately in accordance with laws and regulations through measures such as monitoring by internal audit divisions after each division conducts its own review of maintenance and operation of business processes.
- (8) The OMRON Group's policy on exclusion of antisocial forces is defined in the OMRON Group Management Policies and the OMRON Group Rules for Ethical Conduct.

2. System for Storage and Management of Information Related to Execution of Directors' Duties

- (1) Under the Board of Directors Rules, the minutes of Board of Directors meetings are recorded and kept for 10 years.
- (2) Under the Management Rules, which state the basic policy and principles for Group management and decision making, decision reports are issued for decisions on significant issues. Decision reports, minutes of Executive Committee meetings, and other important documents showing the state of execution of duties are preserved and managed in accordance with laws and internal company rules.

3. Regulations and Other Systems Concerning Loss Risk Management of the OMRON Group

- (1) The Company will engage in risk management integrating all activities that entail risks on a global scale, to ensure the Company's survival and to secure the achievement of corporate objectives while fulfilling its corporate social responsibility.
- (2) The Company will strive to avoid, mitigate and transfer risk of loss through collecting information on and conducting analysis of risks while taking countermeasures against them, in accordance with the OMRON Group Rules for Integrated Risk Management.
- (3) Significant risks for the OMRON Group shall be designated, and Group-wide response measures are across all internal companies shall be determined at Executive Committee meeting
- (4) When a crisis occurs, the Company makes reports, transmits information, and assembles the necessary response teams in accordance with the procedures specified in the OMRON Group Rules for Integrated Risk Management.

4. Systems to Ensure Efficient Execution of Duties by Directors of the OMRON Group

- (1) The Company uses the Executive Officer system and keeps the number of Directors small to ensure substantive discussion and swift decision making at Board of Directors meetings.
- (2) In addition to the Board of Directors, the Company has an Executive Committee, which discusses and decides on significant business execution issues within the scope of the President's authority.
- (3) The Company uses an internal company system, and promotes faster decision making and efficient business operations by delegating substantial authority to the President of each internal company.
- (4) The OMRON Group performs its duties in accordance with the division of duties and scope of decision-making authority set forth based on a concept of proper control and prompt decision making as basic principles.
- (5) The OMRON Group establishes a medium-to-long-term management plan. In order to substantiate this management plan, it formulates a business plan in each fiscal year.

5. System to Report to the Company on Matters concerning Execution of Duties by Directors of Subsidiaries

Information regarding operational results, financial status and other significant matters of subsidiaries must be reported to respective superior units responsible for the management of subsidiaries in accordance with the internal regulations, etc.

6. Systems to Ensure Effectiveness of Audit Performed by Audit & Supervisory Board Members

- (1) An Audit & Supervisory Board Office with dedicated full-time support staff has been established to assist Audit & Supervisory Board Members in performing their duties. The staff members of the

Audit & Supervisory Board Office perform their work under the supervision and instruction of the Audit & Supervisory Board Members.

- (2) Personnel evaluations, appointments and transfers of the staff of Audit & Supervisory Board Office are carried out with the consent of the Audit & Supervisory Board.
- (3) A system is in place for Directors, Audit & Supervisory Board Members and employees of the OMRON Group and those who have been reported from any of them to immediately report to Audit & Supervisory Board Members of the Company regarding incidents of material violations of laws and/or articles of incorporation, misconduct within the OMRON Group, or information relating to potential risk of significant loss to the company, in accordance with predetermined regulations and procedures. Notwithstanding these, the Audit & Supervisory Board Members of the Company may request reports from Directors and employees of the OMRON Group at any time as needed. The Company shall not treat whistleblowers in an unfair way on the ground of reporting of wrongdoing.
- (4) When Audit & Supervisory Board Members request for advance payment of expenses pertaining to the execution of their duties in accordance with Article 388 of the Companies Act, the Company shall handle the request in a prompt manner.
- (5) As a mechanism for securing an effective audit by Audit & Supervisory Board Members, systems are in place for the Audit & Supervisory Board to hold periodic interviews of Directors and Executive Officers, periodically exchange views with the President, periodically exchange information with Accounting Auditors, and receive operational reports from Executive Officers. In addition, the Internal Audit Manager is invited to Audit & Supervisory Board meetings and makes internal audit reports.
- (6) Half or more of the Audit & Supervisory Board Members are Audit & Supervisory Board Members (Independent), including legal professionals such as attorneys and Certified Public Accountants, or individuals with extensive knowledge of finance and accounting, to enhance audit objectivity and effectiveness.
- (7) Audit & Supervisory Board Members attend and state their opinions at Board of Directors meetings as well as Executive Committee meetings and other important meetings.

Overview of Operational Status of Internal Control System

The Company, in accordance with the Basic Policy stated above, operates an Internal Control System, and the following is an overview of the operational status of said System for the fiscal year under review.

1. Initiatives towards compliance and risk management

The OMRON Group promotes integrated responses to compliance and risk management matters through the Corporate Ethics & Risk Management Committee.

The OMRON Group further reinforced its capabilities to respond to change through a department directly under the President to oversee compliance and risk management, and by further promoting and enforcing such kind of responses.

(1) Compliance

The OMRON Group familiarized its officers and employees with the Group's action guidelines, and conducted the necessary trainings. In addition, the Corporate Ethics and Risk Management Committee convened regular meetings, while at the same time the month of October was designated Corporate Ethics Month, and various initiatives have been implemented including sending messages from the President to the officers and employees in Japan and overseas, conducting workplace seminars on corporate ethics and compliance, and distributing corporate ethics cards. Whistle-blower hotlines have been established and are in operation at the major bases in Japan and overseas. Additionally, the Information Disclosure Executive Committee convened regular meetings in order to ensure the accuracy, timeliness and completeness of disclosures, while seminars were held for the prevention of insider trading. Furthermore, the internal audit department conducted regular operational audits on the divisions of the OMRON Group.

During the fiscal year under review, efforts were made to raise the ethics awareness of the OMRON Group officers and employees by globally expanding the activities of the Corporate Ethics Month, which had been carried out in Japan.

(2) Risk management

Based on the OMRON Group Rules for Integrated Risk Management, risks associated with the OMRON Group are identified each year from a global perspective, and upon analyzing such risks, critical risks

for the OMRON Group are designated. With regard to these designated risks, countermeasures are implemented on a Group wide level through the Executive Committee. In addition, the OMRON Group systematically promoted its risk management initiatives by selecting a division to oversee the implementation of risk countermeasures and confirming the progress made on such measures with the Corporate Ethics & Risk Management Committee on a quarterly basis. Additionally, concerted efforts were made by the field and management in order to implement measures to respond to changes in the internal and external environments, namely the appointment of risk managers at the Group companies in Japan and overseas, who utilized the global network to share daily risk information and to quickly organize response to risks.

During the fiscal year under review, efforts were made to further reinforce the OMRON Group's risk capacity to respond to risks by revising the business continuity plan, rearranging the reporting and response procedures at the time of crisis, and other measures.

2. Initiatives to ensure the appropriateness of operations

The Company preserves and manages important documents related to the execution of Directors' duties in accordance with the Board of Directors Rules and other rules related to information management. The Company has reduced the number of Directors in order to ensure substantive discussion of the Board of Directors, as well as uses the Executive Officer System and the internal company system to promote faster decision making and efficient business operations by delegating substantial authority to the President of each internal company. At the monthly Executive Committee, significant business execution issues are discussed and decided within the scope of the President's authority. The OMRON Group has also established a system which ensures proper control and prompt decision-making by clearly setting forth the applicable division of duties, decision-making authority and reporting rules.

During the fiscal year under review, the Company improved the efficiency and promptness of decision-making procedures by incorporating IT systems into the decision-making processes and revising decision-making authority.

3. Initiatives to ensure the effectiveness of audits by Audit & Supervisory Board Members

The Company has established an Audit & Supervisory Board Office independent from business execution to assist the Audit & Supervisory Board Members in performing their duties and has also appointed the necessary staff members to the Office. The Audit & Supervisory Board Office holds periodic interviews of Directors and Executive Officers, periodically exchange views with the President, periodically exchange information with Accounting Auditors, and receive operational reports from Executive Officers. Audit & Supervisory Board Members also attend and state their opinions, as necessary, at Board of Directors meetings as well as Executive Committee meetings and other important meetings.

During the fiscal year under review, officers for the periodic interviews were expanded to the managers of divisions relating to internal controls, except Executive Officers. In addition, a council for discussions and the exchange of opinions were arranged for Audit & Supervisory Board Members, the Accounting Auditors and the internal control departments, in an effort to strengthen coordination among the three parties.

(5) Policy on Setting Dividends

Pursuant to the articles of incorporation, the Company presents proposals for setting dividends to the General Meeting of Shareholders, except for interim dividends, which are set by resolution of the Board of Directors. The Company applies the following basic policy regarding distribution of profits including shareholder returns.

- 1) In aiming toward the sustained improvements in corporate value, the Company prioritizes investments in R&D, capital investments and M&As, which are vital to OMRON's future growth, and ongoing efforts are made to enhance shareholder returns by securing the necessary internal reserves for these investments and taking capital efficiency into account.
- 2) For dividends in each fiscal year, OMRON's policy is to enhance stable and uninterrupted profit distributions based on consolidated results, the payout ratio, and indicators including dividends on equity (DOE), which is return on equity (ROE) multiplied by the payout ratio. Specifically, during the period covered by the medium-term management plan for fiscal 2017 to fiscal 2020 ("VG2.0"), the Company will pay dividends based on a payout ratio of approximately 30% and a DOE of approximately 3% as a guide.

- 3) Utilizing retained earnings that have been accumulated over a long period of time, OMRON intends to strategically repurchase and retire the Company's stock in a manner that benefits shareholders. In terms of the annual dividends for the fiscal year ended March 31, 2017, the Company has applied the payout ratio of 30%, as per the previous policy.

(6) Other Policies, etc.

Basic Strategy for Capital Policy

- 1) To maintain and improve shareholder value, the OMRON Group will implement management practices by taking into consideration the adequate target levels for return on invested capital (ROIC), return on equity (ROE), and earnings per share (EPS). To prepare for rapid fluctuations in economic conditions, we will also set the equity ratio target at a level sufficient for maintaining a corporate credit rating that enables raising of funds without regard to monetary market conditions.
- 2) With respect to capital policy that results in a change of control or in significant dilution, the Board of Directors will make a rational decision by fully taking into consideration the effects it would have on the aforementioned ROIC, ROE, and EPS.
- 3) If the OMRON Group implements a fund raising program that will result in significant dilution, the use of the fund and its collection plan will be fully examined and deliberated at a meeting of the Board of Directors before making a resolution, and sufficient explanation will be given to investors and shareholders.

Anti-Takeover Measures

No anti-takeover measures are in place at the OMRON Group.

Constructive Dialogue with Shareholders

The OMRON Group strives to contribute to sustainably increasing its corporate value through dialogue with shareholders. Additionally, we will release our basic policy for the development of systems and initiatives for facilitating constructive dialogue with shareholders (the "Basic Policy").

Notes to Consolidated Financial Statements

Basis of Presenting Consolidated Financial Statements

Significant Accounting Policies

1. Principles of Consolidation

The Consolidated Financial Statements include all the Company's 164 subsidiaries.

2. Application of Equity Method

Investments in the Company's 16 affiliated companies are accounted for using the equity method.

3. Basis of Consolidated Financial Statements

The Company prepares its Consolidated Financial Statements in conformance with the terminology, form and preparation methods based on accounting principles generally accepted in the United States of America, in accordance with Article 120(3), paragraph 1 of the Company Accounting Regulations. However, certain disclosure items required by accounting principles generally accepted in the United States of America have been omitted, in conformance with provisions of the latter part of paragraph 1 of Article 120 of the same Regulations, which is applied mutatis mutandis to paragraph 3 of the same Article.

4. Valuation standards and methods for inventories

Domestic inventories are mainly stated at the lower of cost, determined by the first-in, first-out method, or market value. Also, overseas inventories are mainly stated at the lower of cost, determined by the moving-average method, or market value.

5. Valuation standards and methods for securities

The Company applies U.S. Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic (hereinafter, "FASB ASC") 320, "Investments – Debt and Equity Securities."

Held-to-maturity securities:	Reported at amortized cost
Available-for-sale securities:	Reported at fair value on the balance sheet date. (The cost of securities sold is determined on the average cost basis.)

6. Fixed assets are depreciated by the following methods:

Property, plant and equipment:	Principally on a declining-balance method
Goodwill and other intangible fixed assets:	Straight-line method (However, in accordance with FASB ASC 350, "Intangibles—Goodwill and Other," goodwill and intangible assets with indefinite useful lives are tested for impairment at least annually, instead of amortization.)

7. Accounting standards for reserves are as follows:

Allowance for doubtful receivables: An allowance for doubtful receivables is established in amounts considered to be appropriate based primarily upon the Companies' past credit loss experience and an evaluation of potential losses within the outstanding receivables.

Termination and retirement benefits: Termination and retirement benefits are accounted for and are disclosed in accordance with FASB ASC 715, "Compensation-Retirement Benefits" based on the fiscal year-end fair value of plan assets and the projected benefit obligations of employees.

Unrecognized prior service cost is expensed using the straight-line method based on the average remaining length of service of employees.

Unrecognized actuarial net losses are expensed using the straight-line method based on the average remaining length of service of employees for the amount exceeding the "corridor" (10% of projected benefit obligation or fair value of plan assets, whichever is greater).

8. Accounting Treatment of Consumption Taxes

Consumption taxes and other value-added taxes have been excluded from sales.

Net loss on sales and disposals of property, plant, and equipment	JPY 705 million
Loss on impairment of investment securities	JPY 558 million
Gain on sale of business	JPY (3,686) million
Net gain on sales of investment securities	JPY (3,764) million
Gain on establishment of retirement benefit trust	JPY (7,004) million

Notes Related to Financial Instruments

1. Matters Related to Financial Instruments

The Company limits its fund management to short-term deposits and similar instruments, and raises capital through borrowings from banks and other financial institutions. Investment securities are mainly publicly traded stocks. In regard to derivative transactions, the Company enters into foreign exchange forward contracts, foreign currency options and commodity swaps. The Company does not use derivatives for trading purposes.

2. Matters Related to Fair Value, etc. of Financial Instruments

The amounts recorded on the Consolidated Balance Sheet on March 31, 2017 (80th consolidated account settlement date), fair value and differences are as follows.

(JPY millions)

	Balance Sheet Amount (*)	Fair Value (*)	Difference
(1) Investment securities	19,551	19,551	—
(2) Derivatives			
Other current assets	248	248	—
Other current liabilities	(3,141)	(3,141)	—

(*) Amounts accounted for in liabilities are shown in parentheses.

Notes: 1. Method of calculation of fair value of financial instruments

- (1) The fair values of cash and cash equivalents, notes and accounts receivable-trade, leasehold deposits, short-term debt, and notes and accounts payable-trade are estimated to be essentially equivalent to the balance sheet amounts.
 - (2) Investment Securities
Stocks are valued at the quoted market price.
 - (3) Derivatives
Estimated using dealer transaction prices or valuation models.
2. The fair value of unlisted securities (JPY 7,455 million in the Consolidated Balance Sheets) is not practically estimable because they have no readily determinable public market value and their future cash flow cannot be estimated. Therefore, they are not included in (1) Investment securities.

Notes Related to Per-share Data

1. Net income attributable to shareholders per share, basic	JPY 215.09
2. Net income attributable to shareholders per share, diluted	JPY 215.09

Notes to Non-consolidated Financial Statements

Significant Accounting Policies

1. Valuation standards and method for securities
Common stock of subsidiaries and affiliates: Stated at cost using the moving-average method

Other marketable securities:
Securities to which market value applies: Stated at market value based on market prices, etc.
(Unrealized gains and losses are reported in a separate component of equity and selling prices are determined by the moving-average method.)
Securities to which market value does not apply: Stated at cost using the moving-average method
2. Derivatives are stated at fair value.
3. Inventories are stated at cost, determined by the first-in, first-out method. Inventories are stated on the Non-consolidated Balance Sheets at book value after adjustment to reflect reduced profitability.
4. Fixed assets are depreciated by the following methods:
Property and equipment (excluding leased assets): Declining balance method (Useful lives of buildings are generally 15-50 years)
Intangible fixed assets (excluding leased assets): Straight-line method (Estimated useful life of software is 3-5 years)

Leased Assets:
Leased assets related to finance lease transactions without ownership transfer: Straight-line method with the lease period as the useful life and zero residual value.
5. Deferred charges are charged to income in their full amount when they are paid or incurred.
6. The allowance for doubtful receivables is established based on the Company's past credit loss experience for ordinary receivables, and evaluation of financial condition for receivables at risk of default and receivables from customers in bankruptcy.
7. The provision for officers' bonuses is provided based on the projected amount required to be paid at the end of the term to cover payment of bonuses to Directors and Auditors.
8. The termination and retirement benefits is provided based on the projected amount of pension plan assets and retirement benefit obligations at the end of the fiscal year.
Past service cost is expensed using the straight-line method over 15 years, based on the average remaining length of service of employees at the time the cost is incurred.
Actuarial gains or losses are expensed in a proportionally divided amount using the straight-line method over 15 years, starting from the fiscal year following the fiscal year in which gains or losses are occurred, based on the average remaining length of service of employees at the time the gains or losses are incurred in each fiscal year.
As the amount of pension plan assets exceeded retirement benefit obligations, after adjustment of unrecognized past service cost and unrecognized actuarial gains or losses, at the end of the fiscal year, it is recoded as prepaid pension cost on the Non-consolidated Balance Sheets.
9. Foreign-currency denominated credits and debts are translated to JPY according to spot exchange rates on the balance sheet date. Translation gains or losses are credited or charged to income.
10. The Company uses deferred hedge accounting as its hedge accounting method.
11. Consumption taxes and other value-added taxes have been excluded from sales.
Non-deductible consumption tax relating to assets, etc. is treated as period cost in the fiscal year of accrual.
12. The Company applies the consolidated taxation system.

Supplemental Information

Application of the “Revised Implementation Guidance on Recoverability of Deferred Tax Assets”

From the fiscal year under review, the Company has applied the “Revised Implementation Guidance on Recoverability of Deferred Tax Assets” (Accounting Standards Board of Japan Guidance No. 26, March 28, 2016).

5. Land Revaluation Difference

The Company revalued land used for business operations on the basis prescribed by the Law Concerning Revaluation of Land (Cabinet Order No. 34, March 31, 1998) and the Revised Law Concerning Revaluation of Land (Cabinet Order No. 94, June 29, 2001). The resulting revaluation difference is stated in net assets as “Revaluation of land,” net of deferred tax liabilities related to the revaluation.

Revaluation method:

The revaluation was based on calculations made with appropriate adjustments to prices registered in the land tax register, pursuant to Article 2, Item 3 of Cabinet Order No. 119 (March 31, 1998) of the Law Concerning Revaluation of Land, and on appraisal values given by property appraisers, as provided in Article 2, Item 5 of the same cabinet order.

Date of revaluation: March 31, 2002

The difference between the total market value at March 31, 2017, of land used for business operations that was revalued pursuant to Article 10 of the above law, and the total book value of such land after revaluation (the amount of market value less than book value) is JPY 3,884 million.
